

TRAINING WORKSHOP ON INFOGRAPHIC DESIGN AND PRINCIPLES

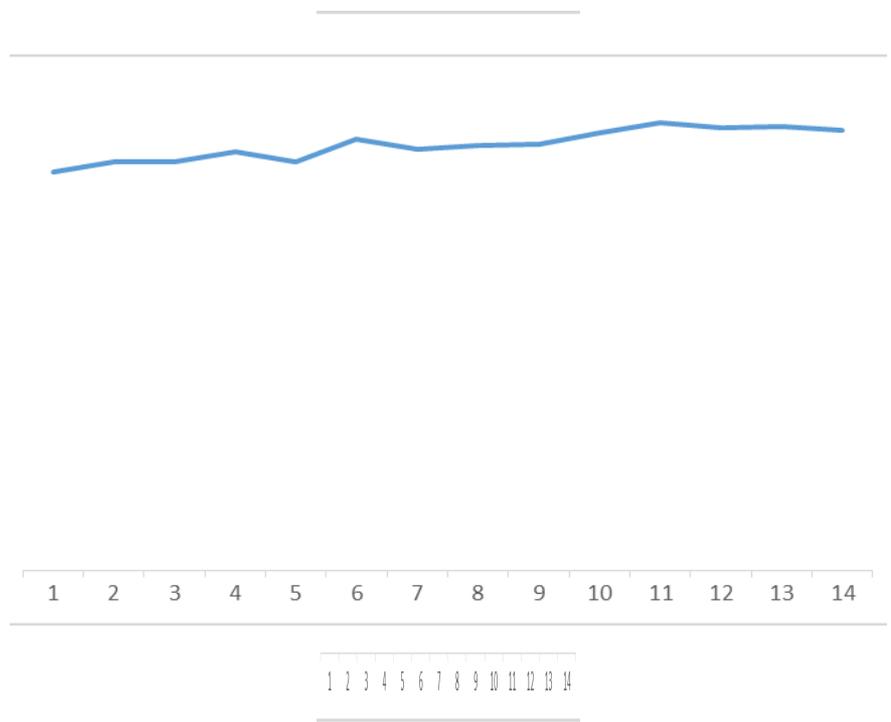

**September 19, 2018
Bohol City, Philippines**

Here's a short story...

THE STATISTICIAN:
**“I can prove it or disprove it.
What do you want me to do?”**

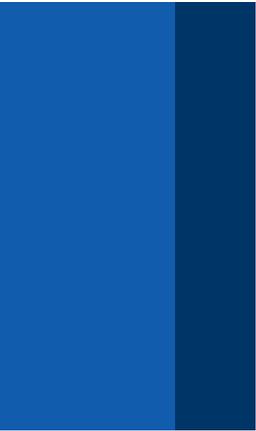

The background of the top section features a grey-toned illustration of several stylized human figures. Some figures are holding up large gears, while others are holding up charts or documents. The overall scene suggests a collaborative effort in a technical or analytical field.

**STATISTICS IS
SO POWERFUL**

that it bends reality.

With great **POWER**
comes great **RESPONSIBILITY.**

INTRODUCTION

Introduction

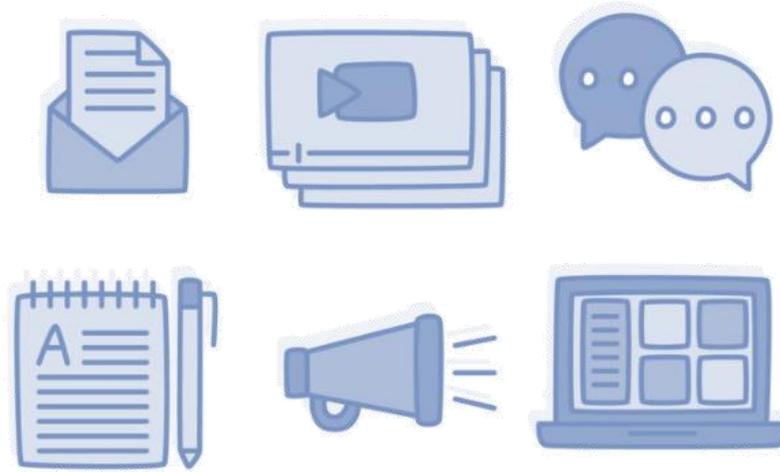

To visualize data is to create images and diagrams to communicate a message.

Introduction

It's simply a
Data Storytelling!

Introduction

Statistics tell,
Stories sell.

What is an infographic?

- Infographics do just what their name suggests, they supply you with a lot of info, all wrapped up in a stylish graphic. Infographics have been proven to be incredibly successful forms of communication, and brand promotion, and it's no surprise to say they've become pretty important to many digital marketers.
- Why bother with infographics? Well, infographics are visual items, and humans are "visually wired" creatures. In fact, 65% of the information transmitted to your brain is visual.

What is an
infographic?

INFORMATION + GRAPHICS

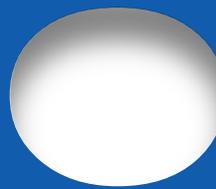

Infographics do just what their name suggests, they supply you with a lot of info, all wrapped up in a stylish graphic.

Infographics have been proven to be incredibly successful forms of communication, and brand promotion, so needless to say they've become pretty important to many digital marketers.

What is an
infographic?

WHY

BOTHER

Infographics are
visual items,
and humans are
'visually wired'
creatures.

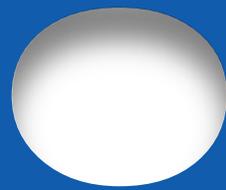

90%
of the information
transmitted
to our brain is visual.

What is an
infographic?

WHY

BOTHER

Humans process visual scenes about

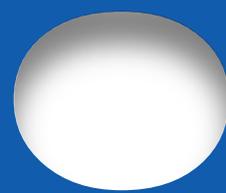

60,000

times faster than they do text.

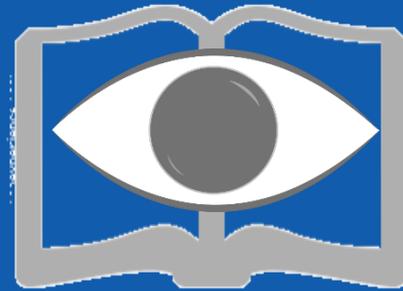

What is an
infographic?

WHY

BOTHER

On the average...

People only read and process about

28% of the text
on web pages

**What is an
infographic?**

INFOGRAPHICS

Infographics take all of that dense textual information and convert it into an easy to read, highly visual piece of content that people are much more likely to read, understand, and remember.

Example

2016 HOUSEHOLD SURVEY ON DOMESTIC VISITORS

Philippine Statistics Authority in collaboration with the Department of Tourism

The 2016 Household Survey on Domestic Visitors was conducted to gather data on domestic and outbound travels for policymaking purposes. The survey was administered to around 18,000 households and the reference period covered April 1 to September 30, 2016.

Filipinos 15 years old and over traveled within the country and each made **2** trips on the average.

Distribution of Filipino domestic travellers by age group

DOMESTIC TRAVEL

TOP 10 PLACES VISITED by Filipino domestic travellers, 15 years old and over, whose main purpose of visit is pleasure or vacation

- 1 NATIONAL CAPITAL REGION
- 2 NEGROS OCCIDENTAL
- 3 PANGASINAN
- 4 CAVITE
- 5 QUEZON
- 6 BOHOL
- 7 CEBU
- 8 CAMARINES SUR
- 9 LAGUNA
- 10 LEYTE

Most travellers spent money on

- 1 Transportation
- 2 Shopping
- 3 Food and beverage

OUTBOUND TRAVEL

On the average, a Filipino traveller had **1** international travel

The median age of Filipino outbound travellers was **45**

TOP 5 COUNTRIES VISITED

On the average, a traveller spent about **₱50,800** per international trip and stayed for **17** nights

Example

2016 Household Survey on Domestic Visitors

About HSDV 2016

- A nationwide survey designed to gather household-based data on domestic tourism that are vital to the effective development of tourism programs in the Philippines
- A joint undertaking of the Philippine Statistics Authority (PSA) and the Department of Tourism (DOT)
- Started in the 2005 and 5th in its series, HSDV 2016 is the first-ever HSDV with questions translated in Filipino for faster and easier understanding.

Objectives

- To update the baseline data on the volume of domestic and international tourism;
- To update the profile and travel characteristics of domestic and outbound visitors;
- To identify the travel patterns of Filipino households; and
- To estimate the extent of economic contribution of domestic and international tourism in the country.

Scope & Coverage

- A stand-alone survey conducted in November 2016 with Apr. 1 to Sept. 30, 2016 as reference period
- Covered a sample of 17,892 households
- Adopted the 2013 Master Sample (MS) for household-based surveys
- Reporting unit is an individual person 15 years old and over who is a member of the sample household.

"Every action counts and travelers have a strong role to play in building a more sustainable tourism sector. Imagine the impact of one small action multiplied by millions."
- Taleb Rifai, UNWTO

Of the **15,251** households that received visitors, **61.3%** are day visitors
11.8% are overnight visitors

DOMESTIC TRAVELERS

1:1 (48.2% Male, 51.8% Female)

OUTBOUND TRAVELERS

1:1 (49.9% Male, 50.1% Female)

34 MEDIAN AGE 45

64.2% are working

WORKING STATUS

76.2% are working

2 trips per traveler

NUMBER OF TRIPS

1 trip per traveler

5 nights on the average

LENGTH OF STAY

17 nights on the average

1 Transportation 2 Shopping 3 Food

EXPENDITURE ITEMS

1 Shopping 2 Transportation 3 Food

1 Vacation 2 Visitation 3 Religion

MAIN PURPOSE

1 Vacation 2 Visitation 3 Business

1 September 2 May 3 August

MONTH OF TRAVEL

GOOD DATA PRESENTATION

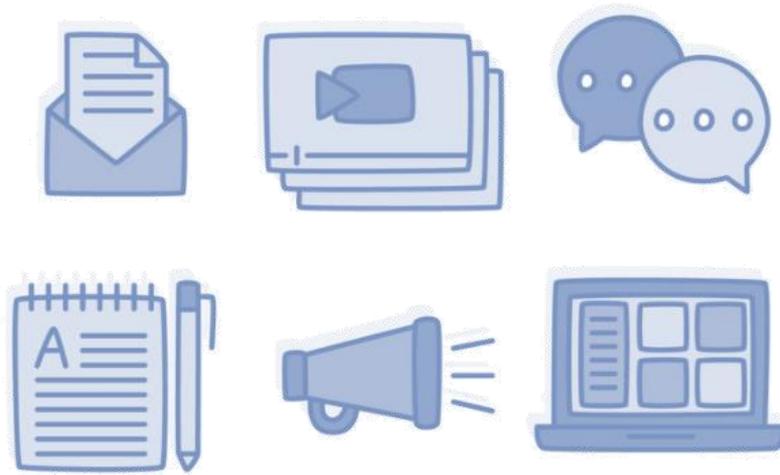

- 1 discover
- 2 explore relationships
- 3 understand

POOR DATA PRESENTATION

- 1 mislead
- 2 deceive
- 3 misinform

*Great data comes
great presentation!*

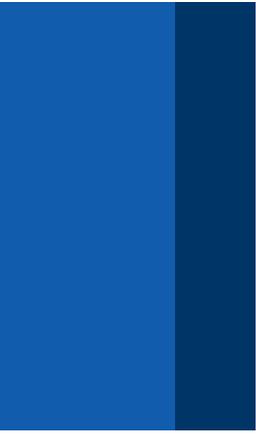

*Great data comes
great presentation!*

TEXTUAL

TABULAR

GRAPHICAL

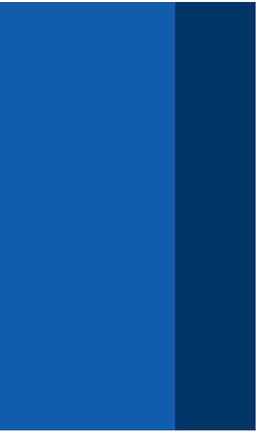

TEXTUAL PRESENTATION

Textual Presentation

- incorporates important figures in a paragraph of text
- insert important data figures or summary measures within the paragraph of text to support our conclusions and answers to the research problem

Guidelines in Textual

- It shows summary measures like minimum, maximum, totals, and percentages. **We do not need to put all these figures in the paragraph.** We have to select the most important ones that we wish to focus on.
- Including too many numbers in a single paragraph can only be **confusing**.
- The written paragraph will become **too burdensome to read** and our **message will only get lost** in all the numbers. We should always provide the readers with **additional explanation** about the relevance of the figures.

TABULAR PRESENTATION

Tabular Presentation

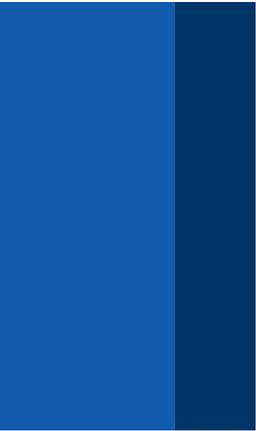

- process of condensing classified data and arranging them systematically in rows and columns

Guidelines in Tables

- The title is descriptive of the table and answers four questions about the subject matter of its table:
 - WHAT?
 - HOW CLASSIFIED?
 - WHERE?
 - WHEN?
- The units of measure must be clearly stated.
- Show any relevant total, subtotals, percentages, etc.
- Indicate if the data were taken from another publication by including a source note.

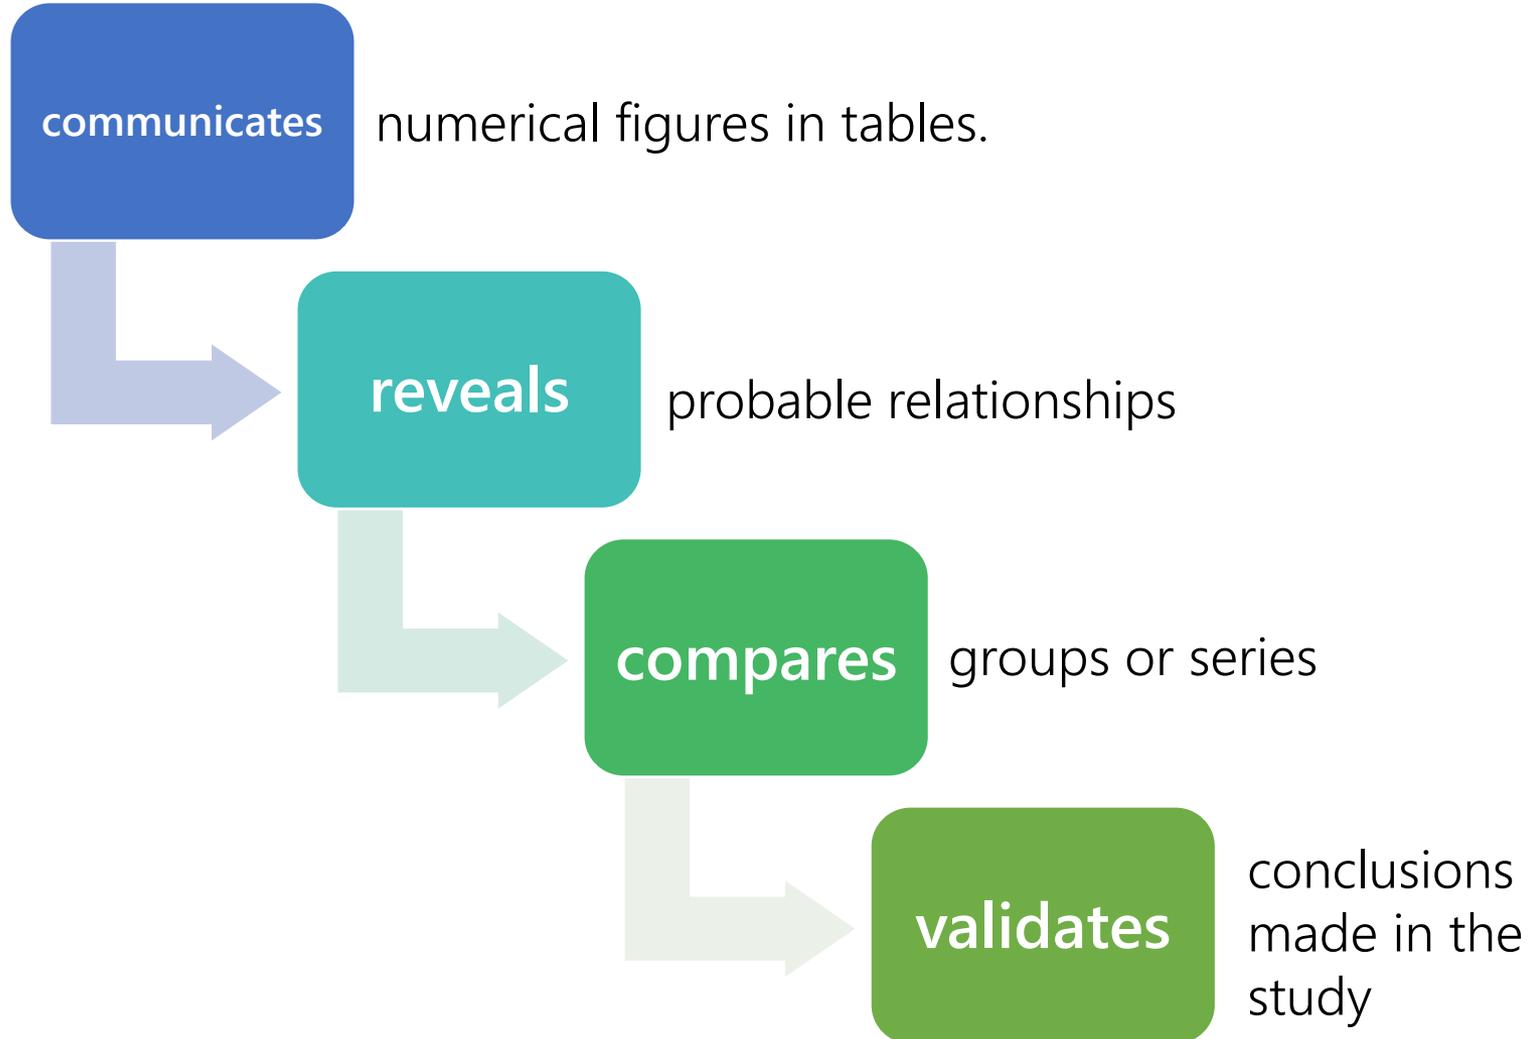

Remove to improve the **data tables** edition

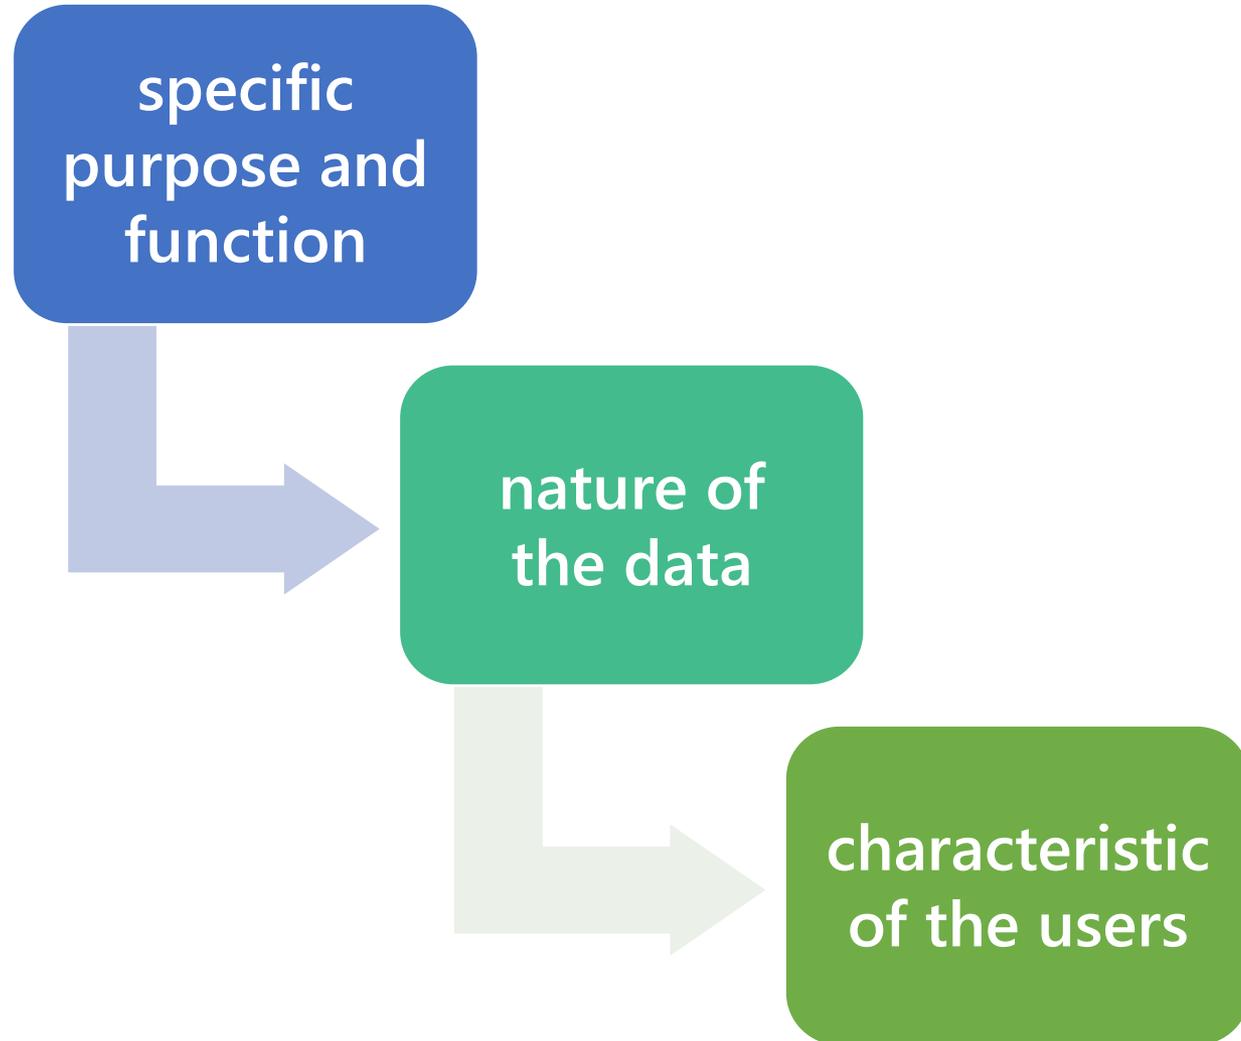

GRAPHICAL PRESENTATION

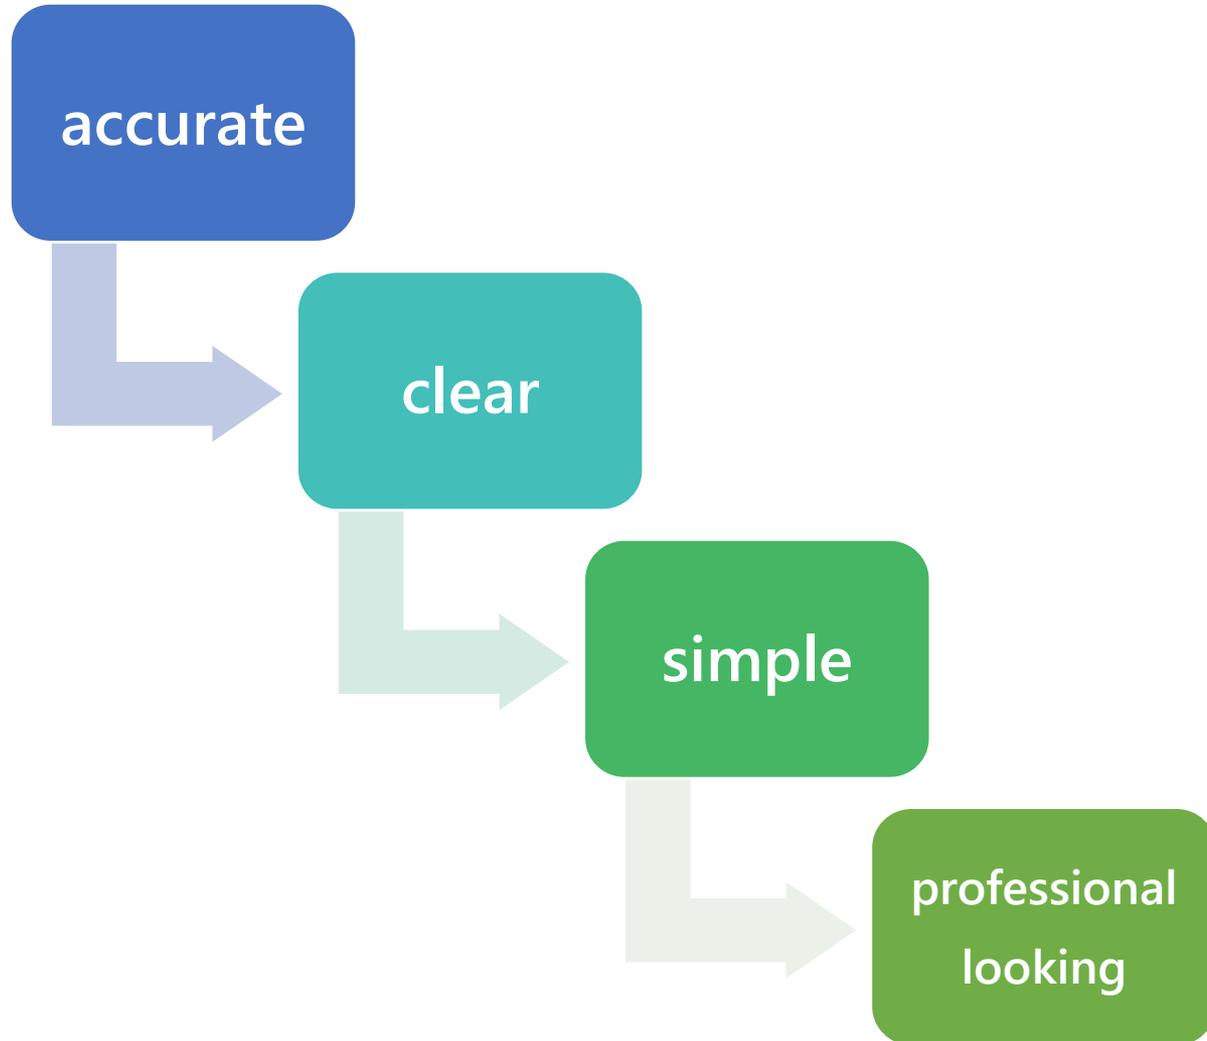

Graphical Presentation

A good chart considers...

A good chart is...

A good chart is...

ACCURATE

a graph should not be deceptive, distorted, misleading, or in any way susceptible to wrong interpretations as a result of inaccurate or careless construction

CLEAR

the graph should be easily read and understood; there should be a forceful and unmistakable focus on the message that the graph is trying to communicate

SIMPLE

the basic design of a graph should be simple, straightforward, not loaded with irrelevant or trivial symbols and ornamentation

PROFESSIONAL LOOKING

a good graph is one that is designed and constructed to attract and hold attention by holding a neat, dignified, and professional appearance

A good chart has...

TYPES OF STATISTICAL CHARTS

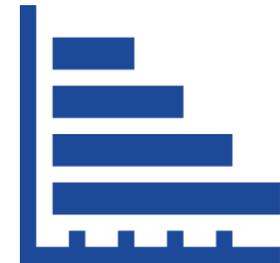

Types of Statistical Charts

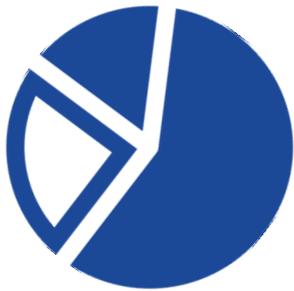

Line

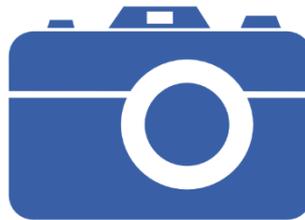

Column

Horizontal Bar

Pie

Pictograph

Statistical Map

LINE CHART

- ✓ for **time series data**
- ✓ emphasis is on the **movement**
- ✓ shows **trends, patterns, forecasts**
- ✓ applicable for one or more time series data for **comparison** purposes
- ✓ x-axis: *time*
- ✓ y-axis: *variable of interest*
- ✓ ratio of height to width should be **2:3** or **3:4**

Examples

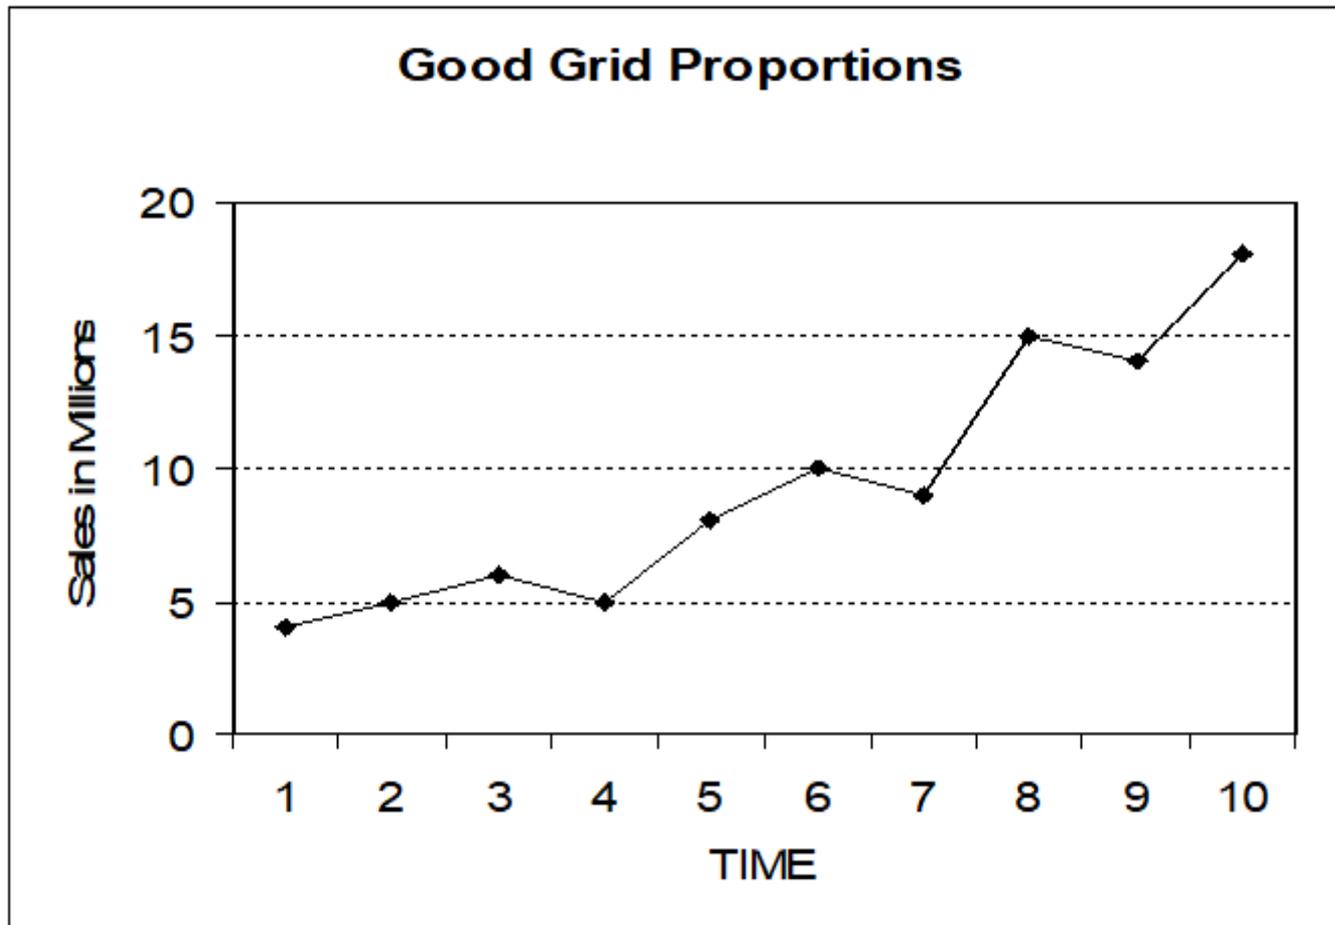

FIGURE Line Chart with Good Grid Proportions

Examples

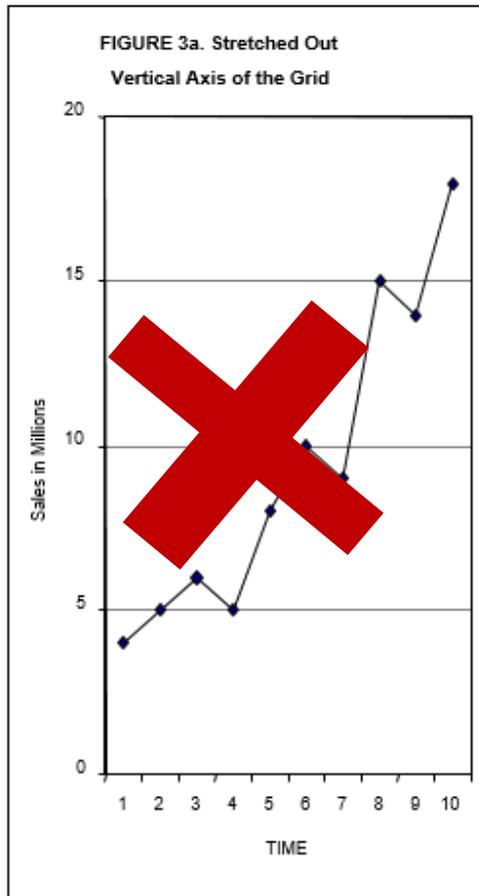

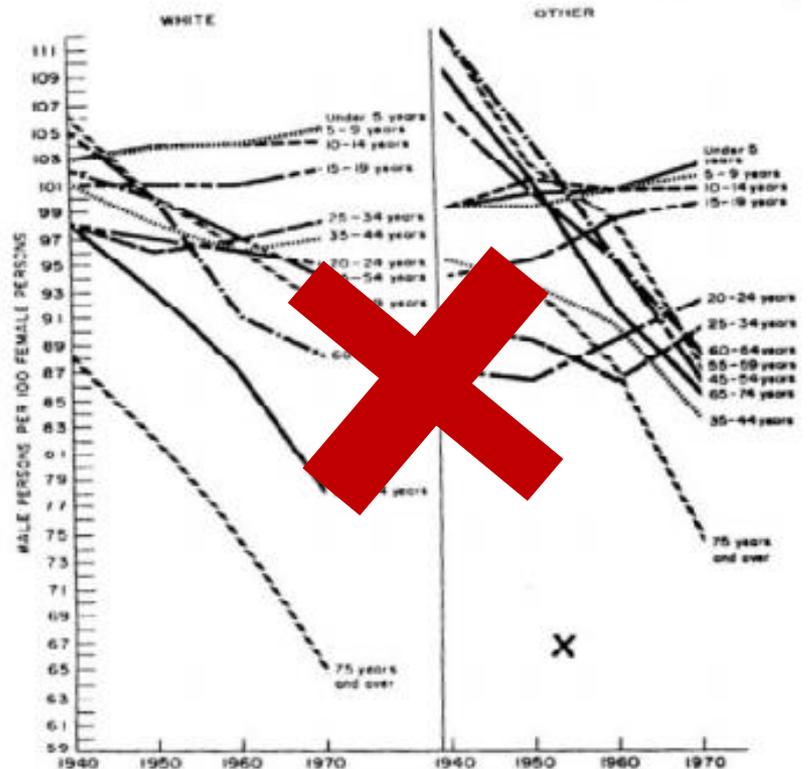

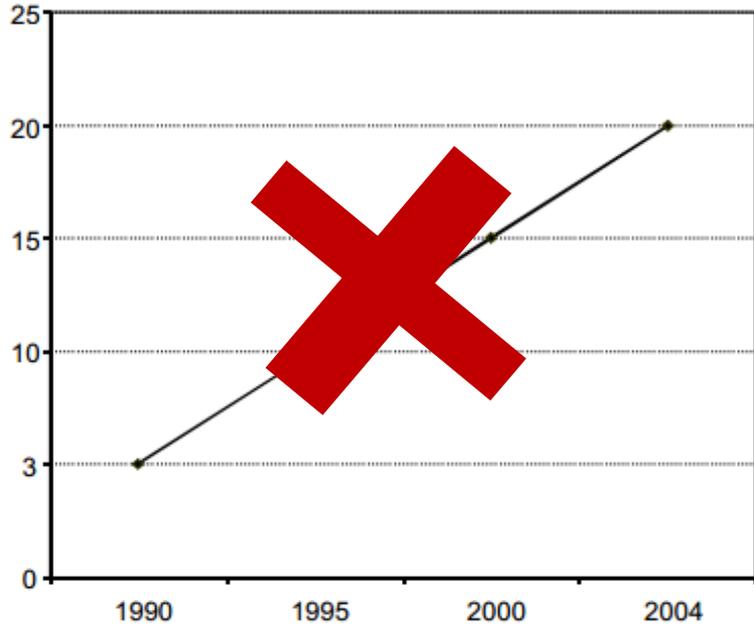

FIGURE . Stretched Out Vertical and Horizontal Axes and Its Consequences

Examples

Examples

Philippine Pesos (PHP) to 1 US Dollar (USD)

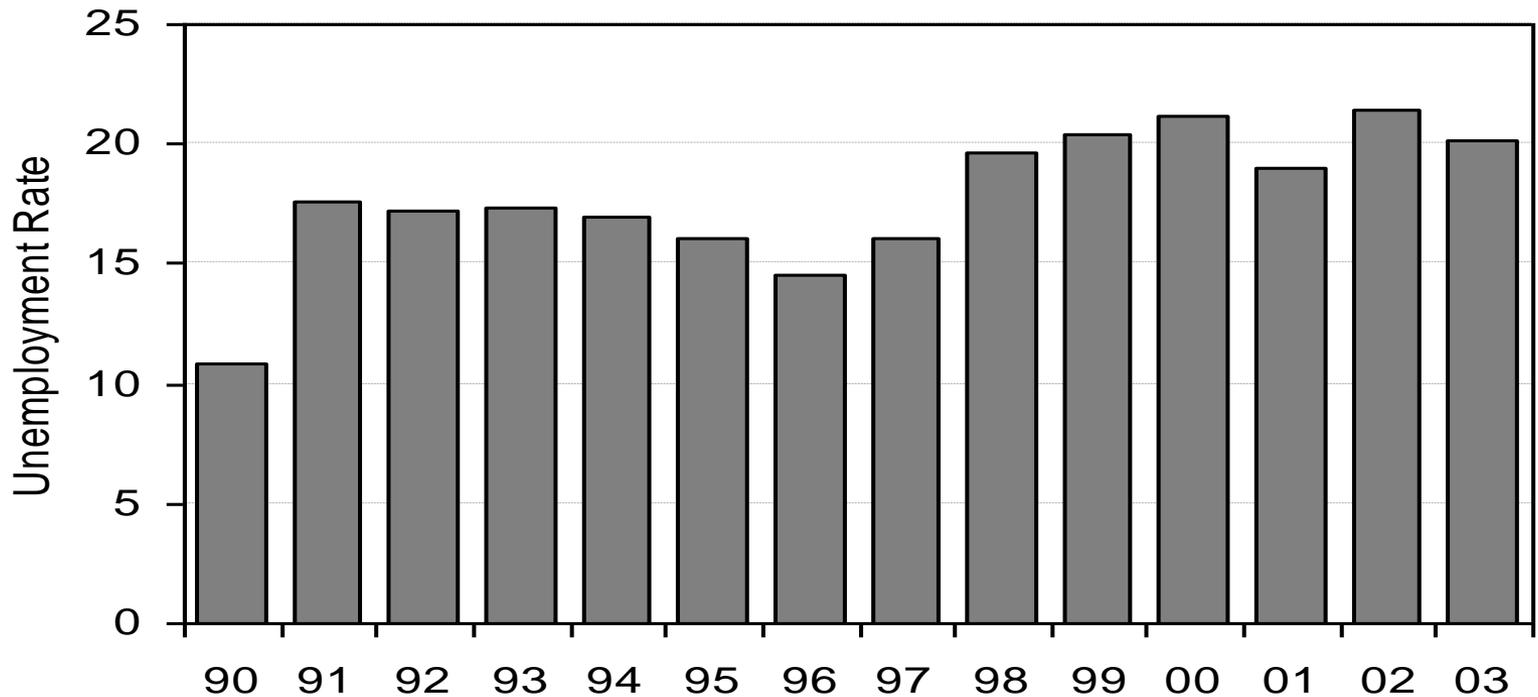

min = 44.8191 (August, 8) avg = 45.2869 max = 45.9249 (July, 29)

COLUMN CHART

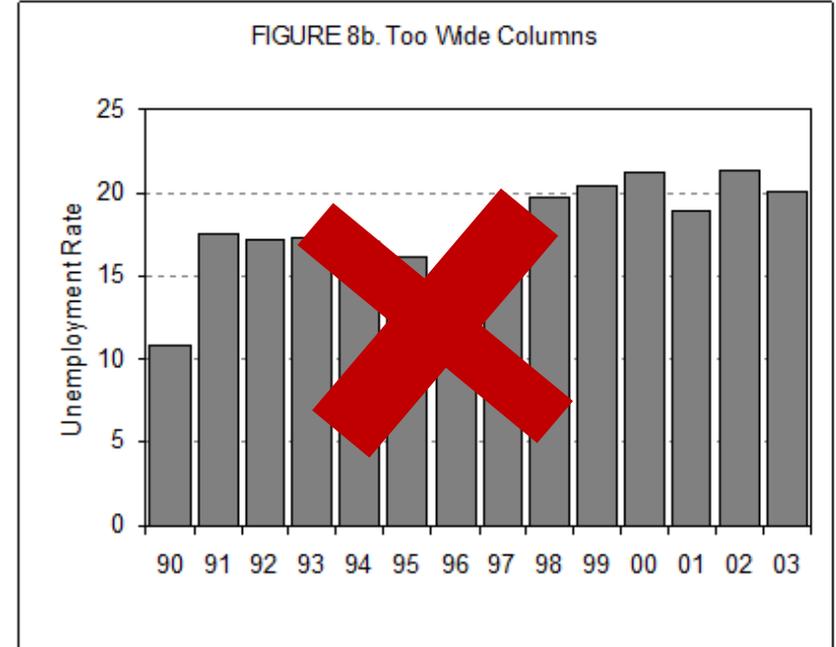

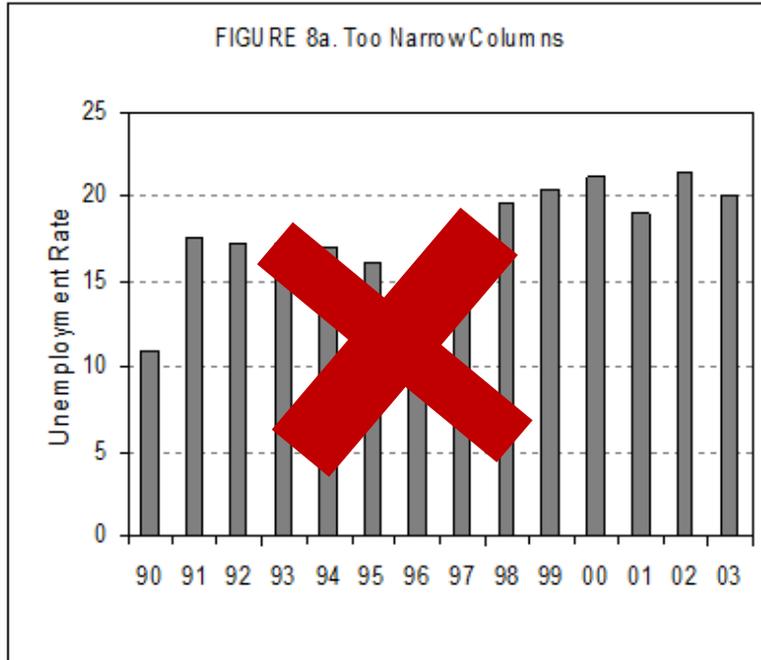

- ✓ Shows **comparisons** of amount of a variable of interest collected over time
- ✓ Emphasis is on the **magnitude** of the data set.
- ✓ **Height** of the column **represents** the **amount** of a specific time
- ✓ Columns must not be too long or too short, not too wide or too narrow.
- ✓ Usual space between bars is around **one-fourth of the width** of the column.

Examples

FIGURE NO. Unemployment Rate of 15-24 Years Old in the Philippines: 1990 to 2003

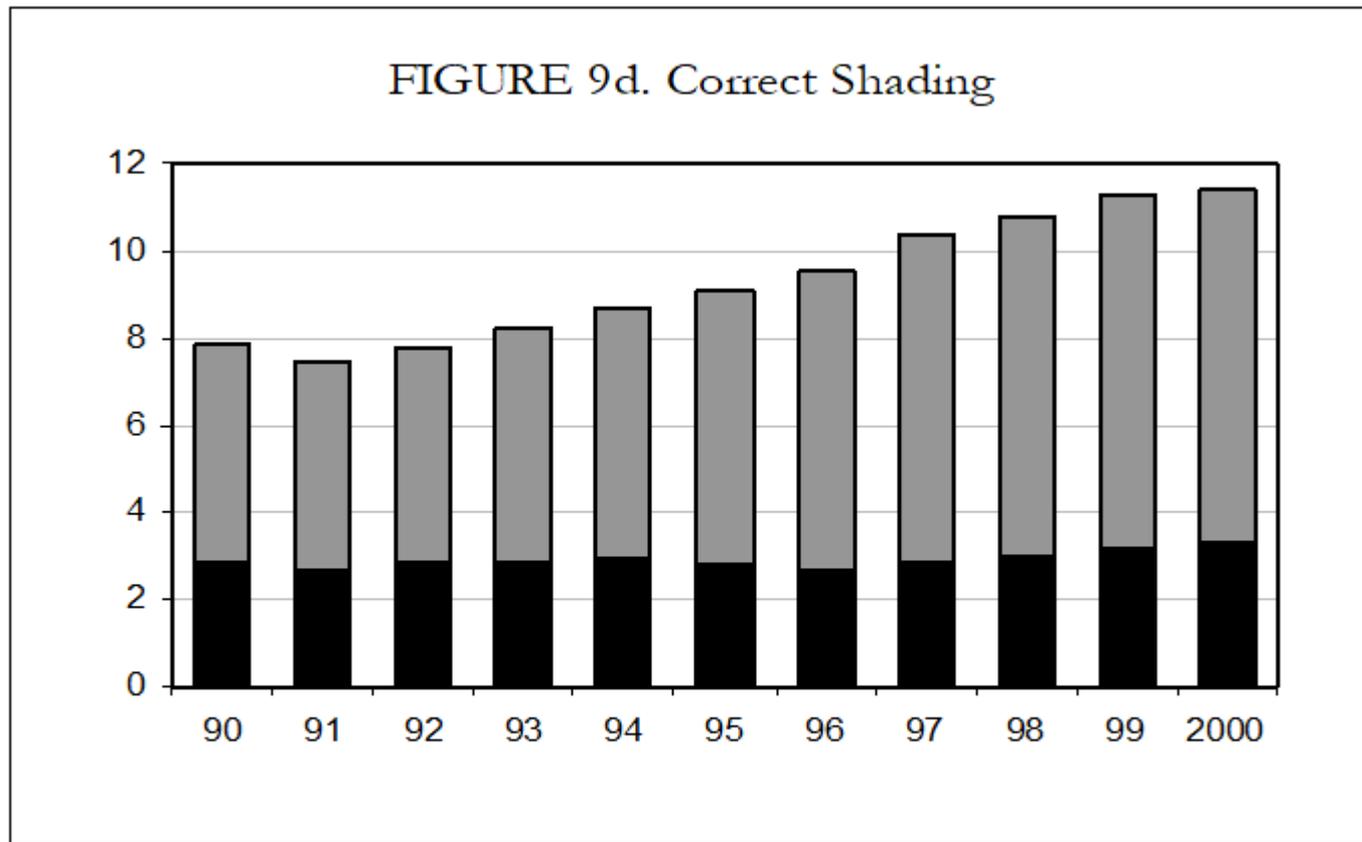

Examples

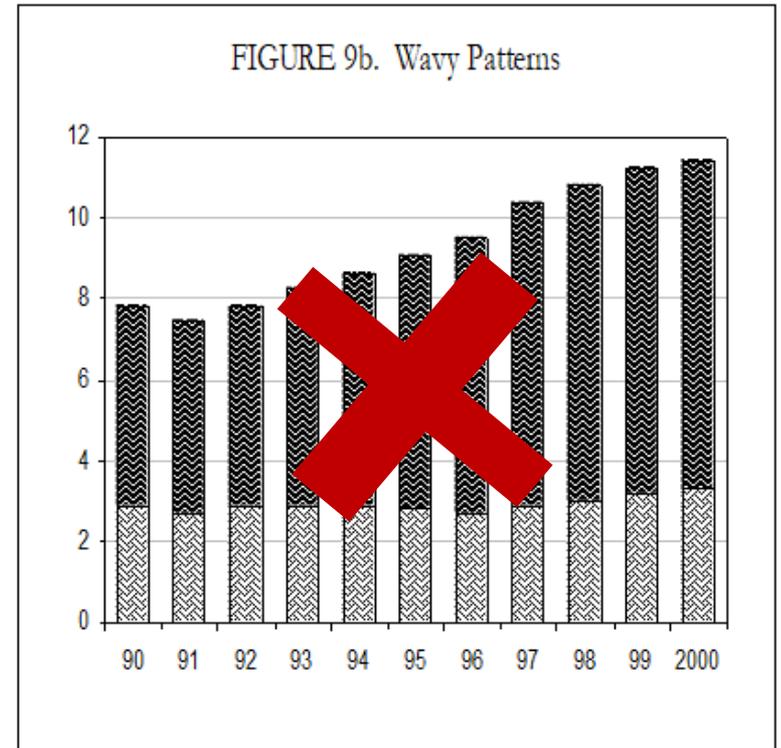

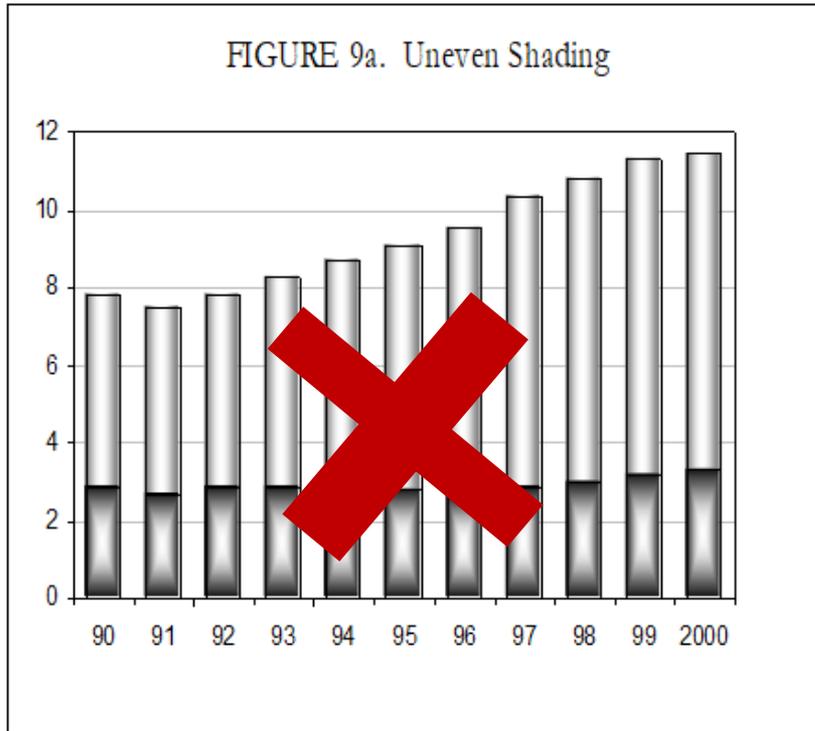

Illustrations of Incorrect Width and Spacing of Columns

Examples

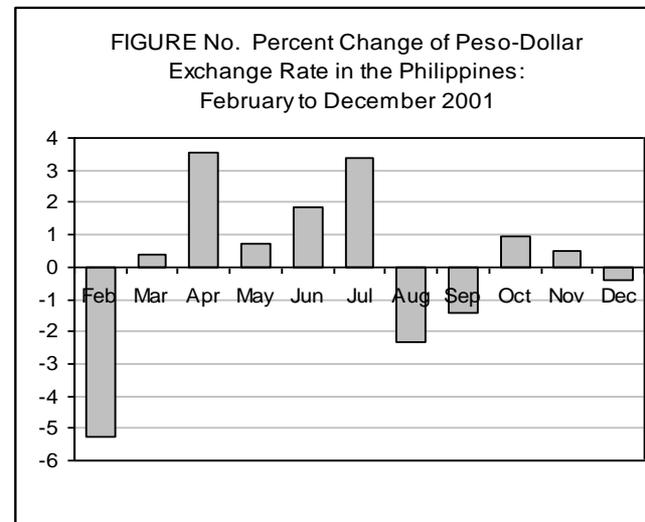

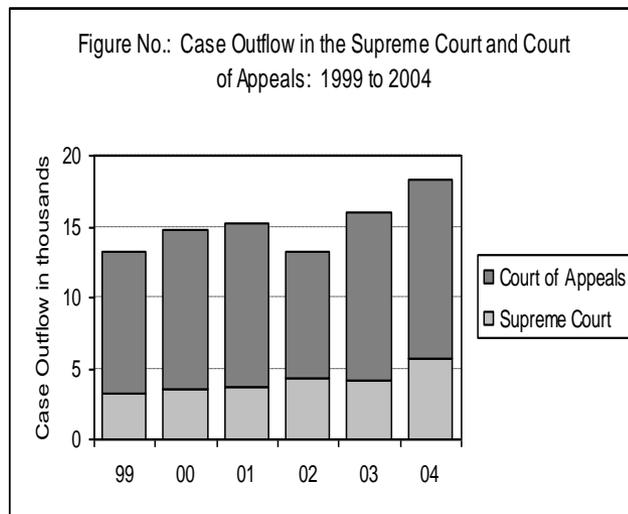

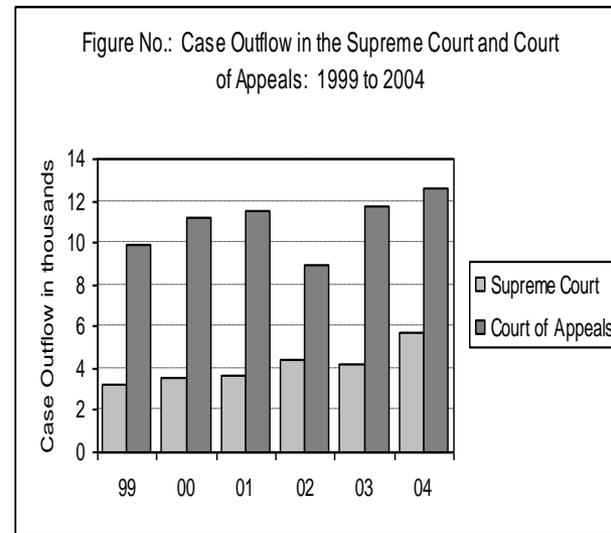

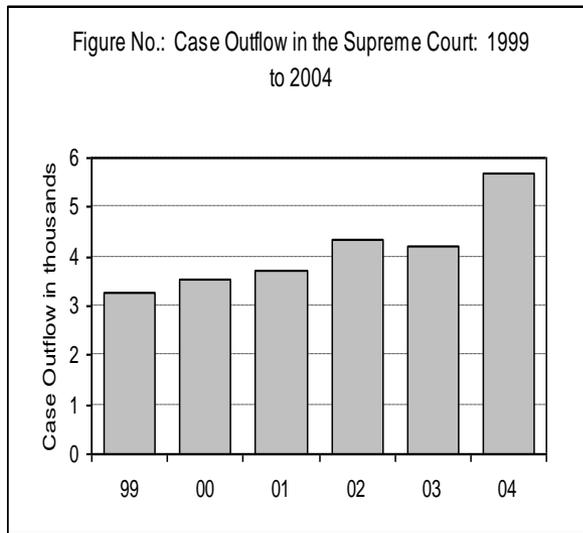

Example of Correct Shading

Examples

Examples of Poor Shading

Types of Column Chart

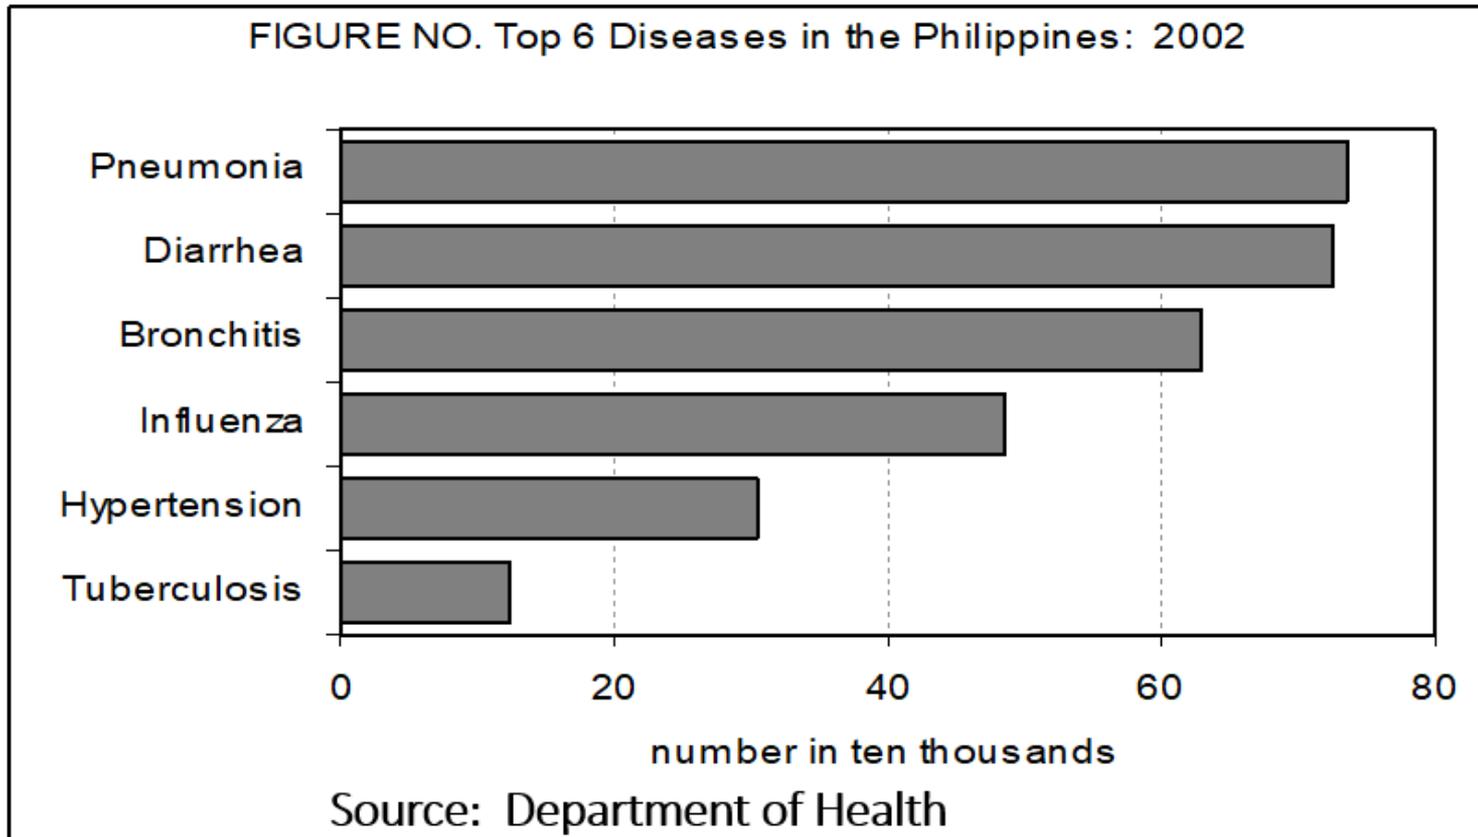

HORIZONTAL BAR CHART

- ✓ for **qualitative** data types given a specific time
- ✓ **compares** the magnitudes of the different categories of a qualitative variable
- ✓ x-axis: *amount or number*
- ✓ y-axis: *categories of the qualitative variable*

HORIZONTAL BAR CHART

- ✓ **Length** of the bar **represents** the **value** for the category.
- ✓ The spaces in between the bars may be **one-fifth to one-half the width** of the bar.
- ✓ **Arranging** the bars **according to length** facilitates comparisons.
- ✓ Use appropriate colors or patterns for the bars.

Examples

PIE CHART

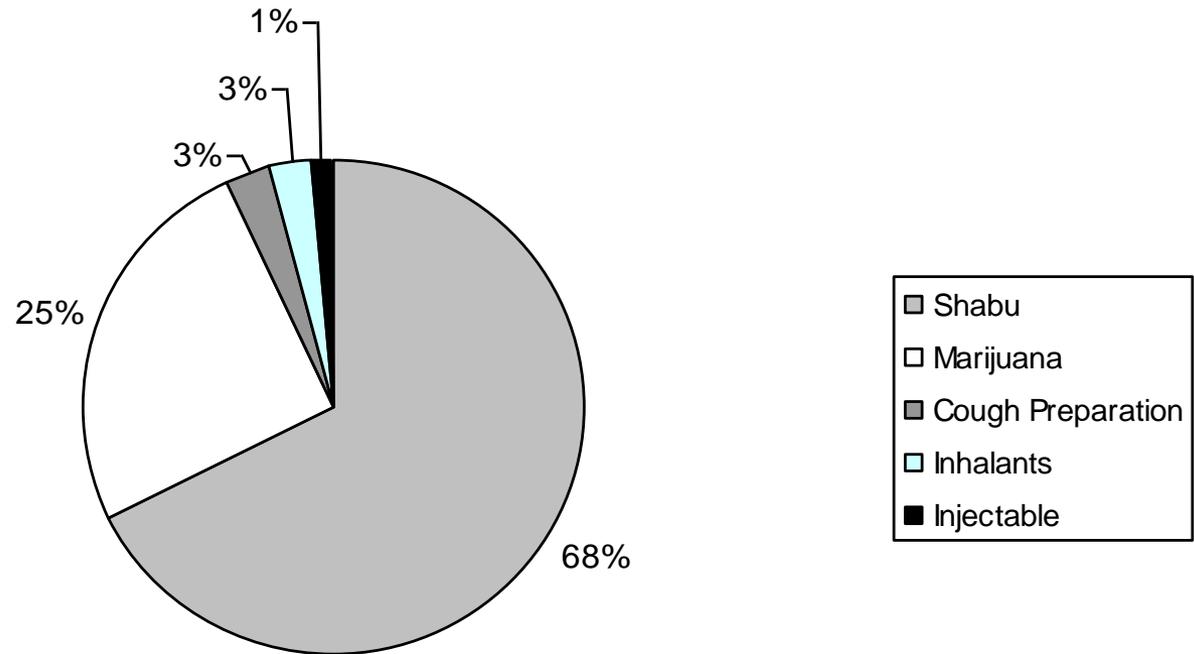

- ✓ Useful for data **sorted into categories** for a specific period.
- ✓ Purpose is to **show the components parts with respect to the total** in terms of the percentage distribution.
- ✓ Use the pie chart if there are **2-6 categories** in the data set.

PIE CHART

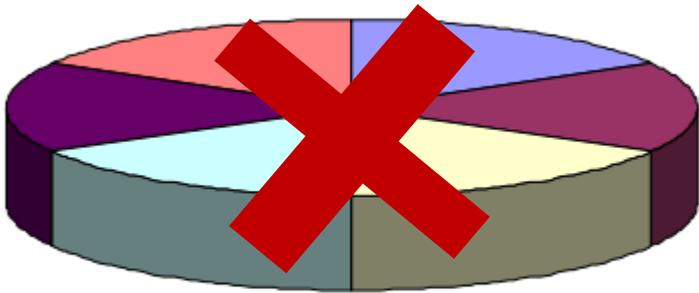

- ✓ Arrange components of the pie chart **according to magnitude.**
- ✓ If there is an "Others" category, we put it in the **last section.**
- ✓ Use different colors, shadings, or patterns to distinguish one section of the pie to the other sections.
- ✓ Plot the **biggest** slice at **12 o clock.**

Examples

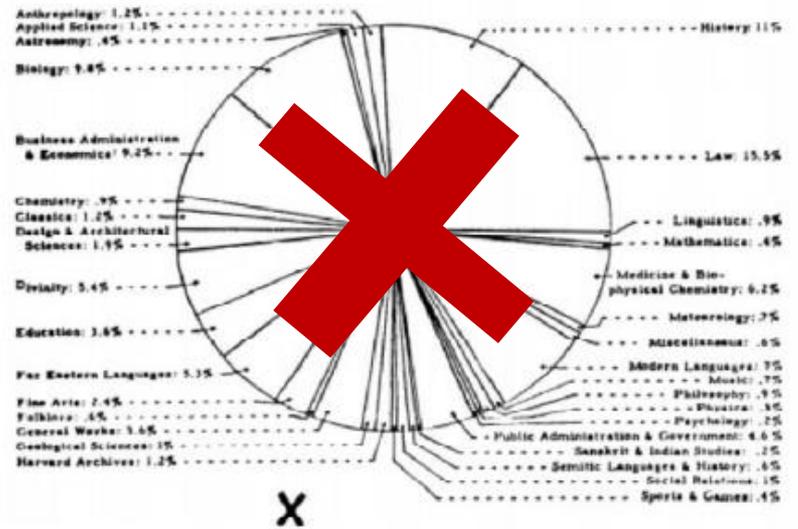

Figure No.: Percentage Distribution of Reported Cases of Drug Abuse by Type of Substance in the Philippines: 2004

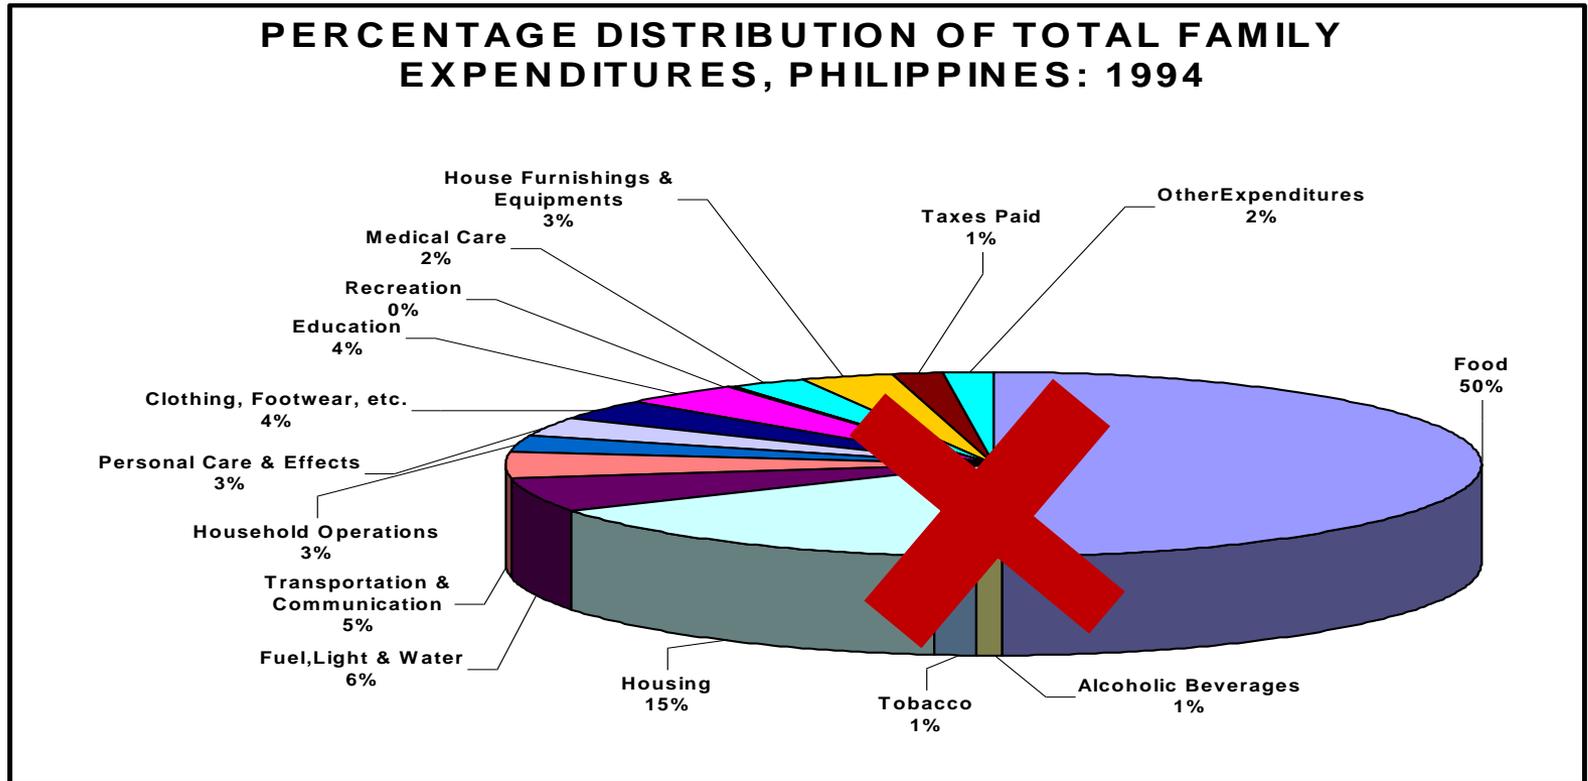

Examples

Subject Content of the Harvard University Library

Examples

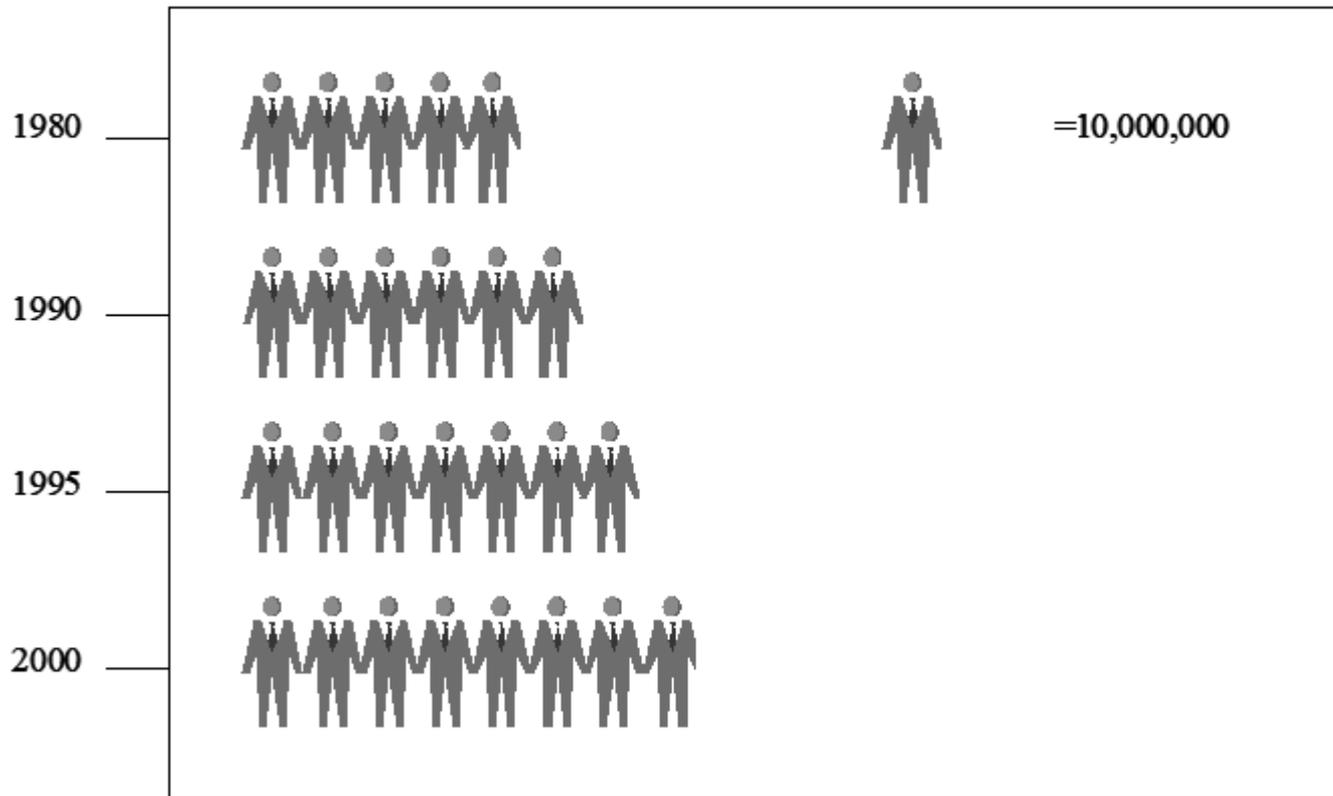

PICTOGRAPH

- ✓ gives an **approximation only of the actual figures**
- ✓ **compares** the different categories
- ✓ Symbols selected should be **self-explanatory and easy to understand.**
- ✓ Each **symbol represents a number.**

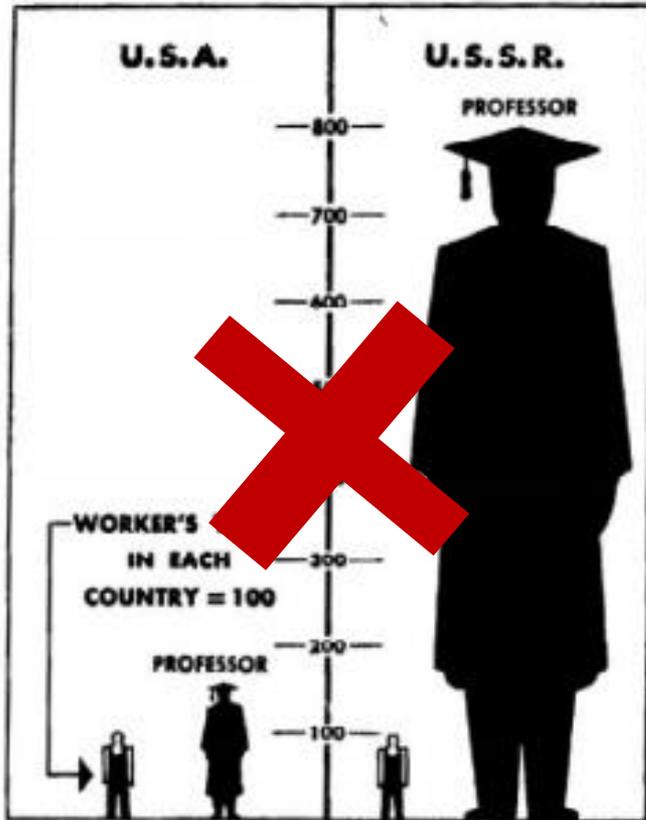

Examples

Population in the Philippines
for Census Years 1980, 1990, 1995 and 2000

Source: National Statistics Office

Examples

*Where the Russian professor is a giant...
He earns 8 times as much as average Russian factory worker.
Our professors make only 1 1/2 times U.S. factory worker's pay.*

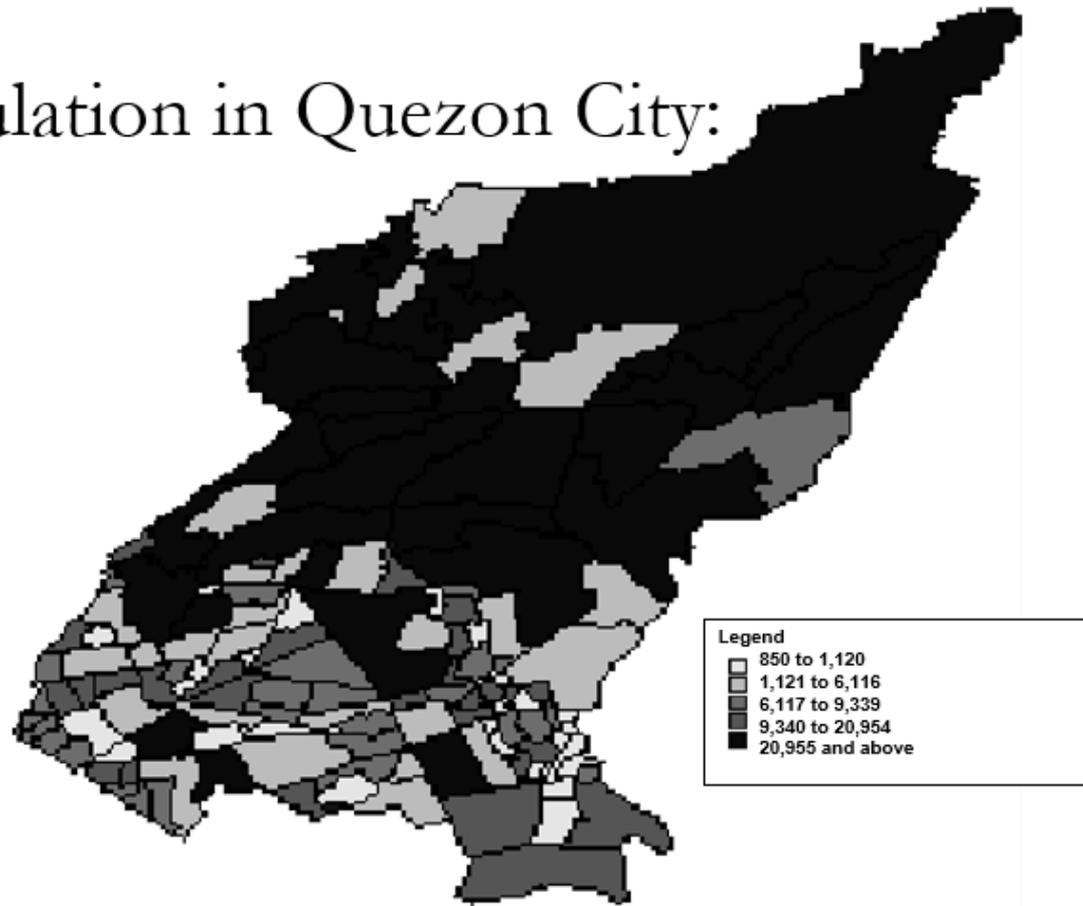

Mango trees	
Banana trees	
Rose trees	
Coconut trees	
Grapes trees	

STATISTICAL MAPS

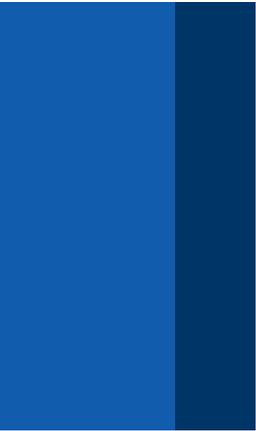

- ✓ to show data in **geographical areas**
- ✓ Geographic areas may represent barangays, cities, district, provinces, and countries.
- ✓ Figures in the map can be **numbers, ratios, rates, percentages, and indices.**

Examples

Population in Quezon City:
1995

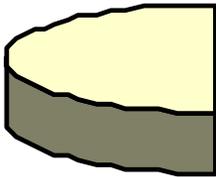

EXERCISE:

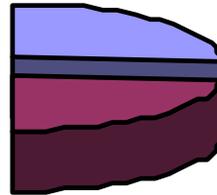

Let's examine the following graphs and give some comments.

Setting up an Account

- Signing up in Canva is simple! You may either use your **Facebook account** or your **Google Mail (gmail) account** to sign up and log in!

Creating your Design

- Let us visit the site support.canva.com to guide us through the program.
- With the *Creating Your Design* tab, there are many elements to choose from and navigate, such as the Search, Grids and Frames, Layouts, among others.

Search + Advanced Search

apple

apple + red

apple NOT red

apple OR banana

apple + cutout:true

apple + icon

apple + illustration

Grids

Why use a grid?

- Grids help you **place your images in an aesthetically pleasing format.**
- You might want to use grids to **show a progression, much like a storyboard,** or merely for a stylistic effect.

Grids

- Adding a Grid
- Removing a Grid
- Resizing a Grid
- Adjust spacing in a Grid
- Adding a background in the Grid

Frames

Why use a frame?

- Canva offers dozens of different kinds of frames that will suit any design.
- You can use a frame **to draw attention to a particular part** of a composition or photograph.
- You can also use frames purely as decorative elements **to make a design more appealing** or create a distinct feel.

Frames

- Adding a Photo to a Frame
- Adjusting a Photo in a Frame

Layouts

Why use a layout?

- Layouts offer **pre-designed visual solutions** for virtually any kind of content you need to produce.
- If you're **having trouble structuring content or selecting fonts** that go well together, layouts give ideas or a design ready for you to use.
- You can **alter each layout as much as you'd like** and change any design element. Think of layouts as beautiful, easily customizable design templates.

Texts

- Adding a Text
- Deleting a Text
- Changing the Font, Size, and Color of a Text
- Aligning Text
- Emphasize Text
- Adding a Bullet
- Changing the Spacing of a Text
- Changing the Transparency of a Text
- Rotating a Text

Photos

- Free Photos
- Uploading Photos from your Computer
- Adding a Photo
- Removing a Photo
- Cropping a Photo
- Filtering a Photo
- Flipping a Photo

Backgrounds

Why use a background?

- Backgrounds offer a **quick and simple way to add color to your design**. Instead of using a plain white background as your backdrop, find one that best fits your goals.
- There are **3 types of background**:
 - Solid color background
 - Illustrative background
 - Image background

Backgrounds

- Free Photos
- Uploading Photos from your Computer
- Adding a Photo
- Removing a Photo
- Cropping a Photo
- Filtering a Photo
- Flipping a Photo

Illustrations and Icons

Why use an illustration or icon?

- Illustrations and icons can add an **element of fun and visual interest** to your designs.

Illustrations and Icons

- Adding an Icon/Illustration
- Formatting an Icon/Illustration

Shapes and Lines

- Adding a Shape and Line
- Formatting a Shape and Line

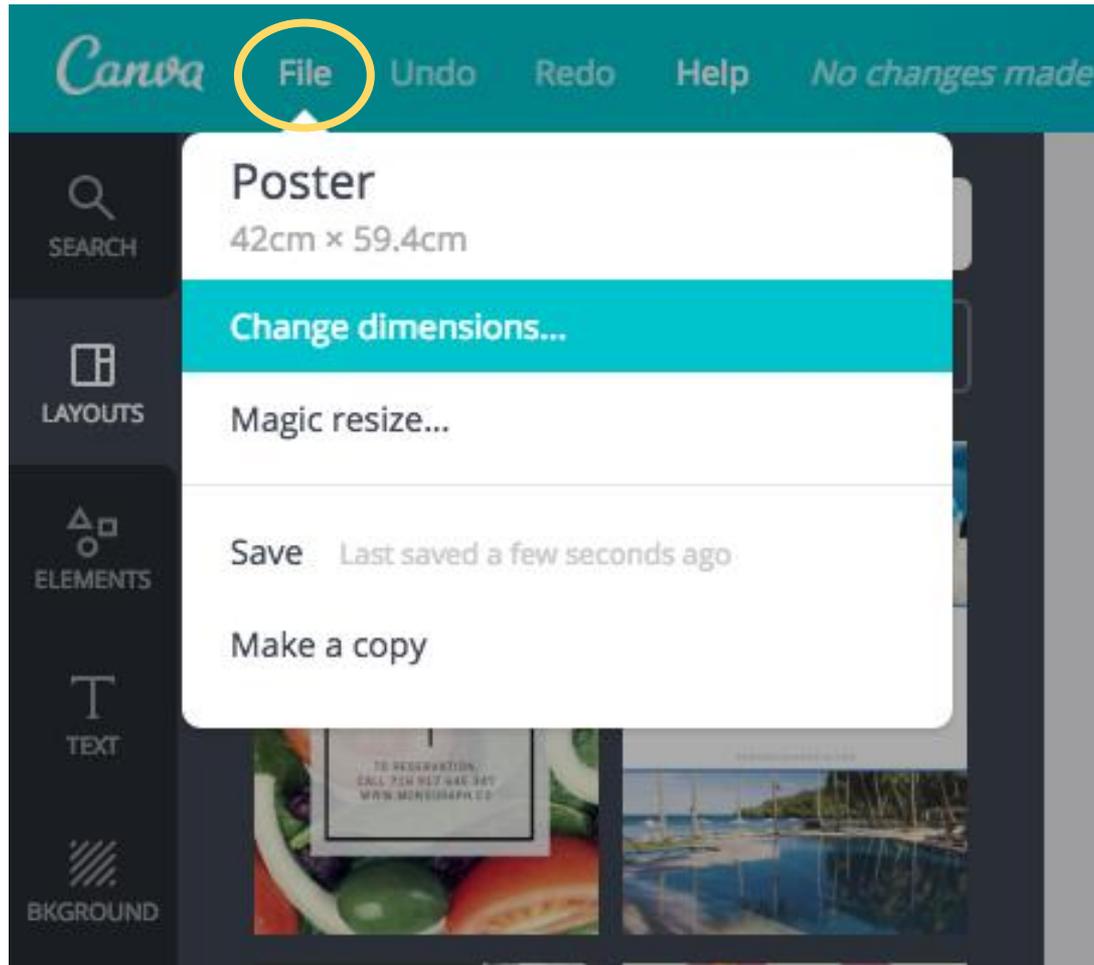

Charts

- Adding a Chart
- Editing the Values in a Chart
- Inputting Values from a Spreadsheet
- Changing the Style of a Chart
- Changing the Color of a Chart
- Changing the Font and Font Size

Changing the Dimensions

- ❑ Presentation (1024 px x 768 px)
- ❑ A4 (21 cm x 29.7 cm)
- ❑ Letterhead (8.5 in x 11 in)
- ❑ Infographic (800 px x 2000 px)

TOP 10 INFOGRAPHIC DESIGN PRINCIPLES

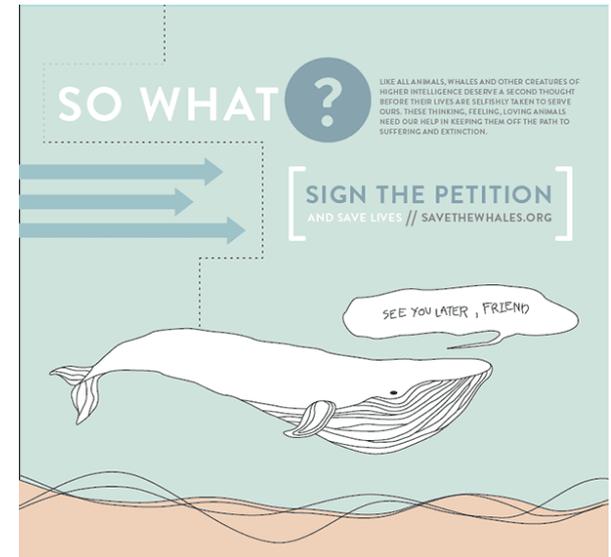

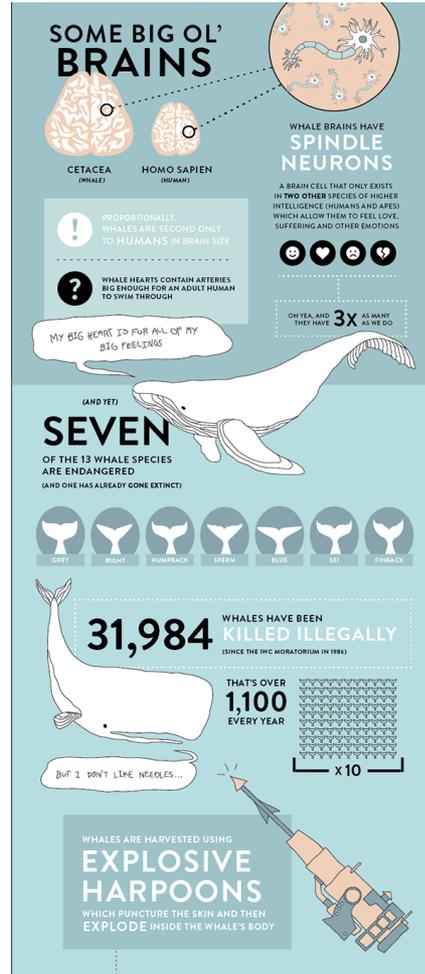

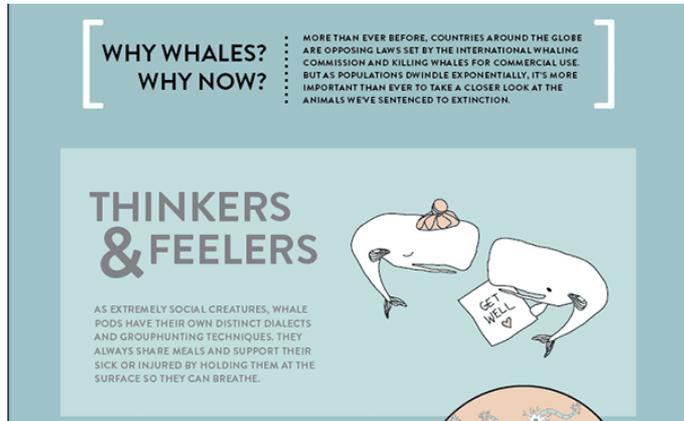

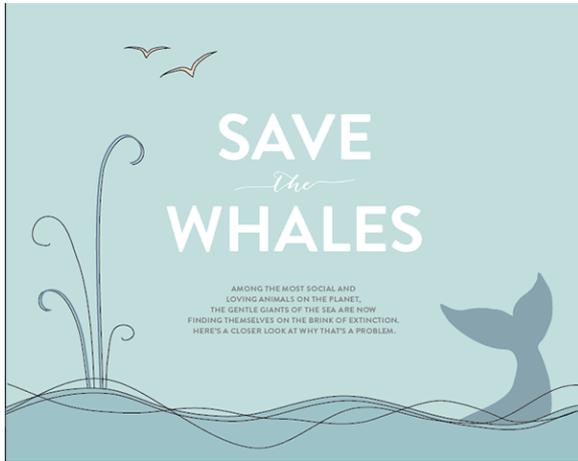

1

Finding Your Narrative

- ✓ Tell a story.
- ✓ Think of your infographic like an essay.
 - Introduce the topic.
 - Explain the topic.
 - Continue the story with facts and data.

1

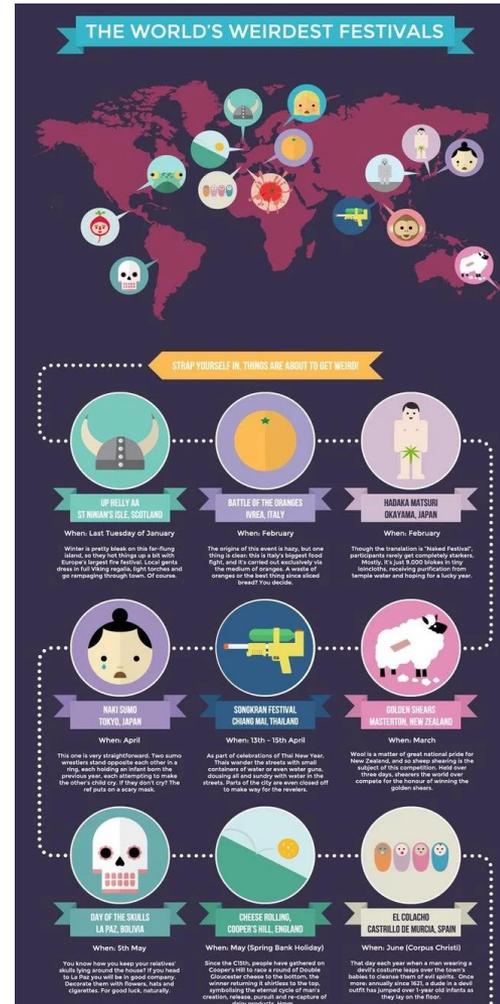

Finding Your Narrative

2

Having a Smooth Flow

- ✓ Guide the reader's eyes to travel around the infographic.
- ✓ Use lines and shapes.

3

Organizing Your Info

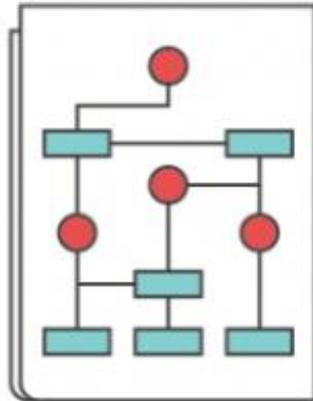

- ✓ How will you present the information?
- ✓ There are different types and applications of infographics (*to be discussed in the succeeding sections*)

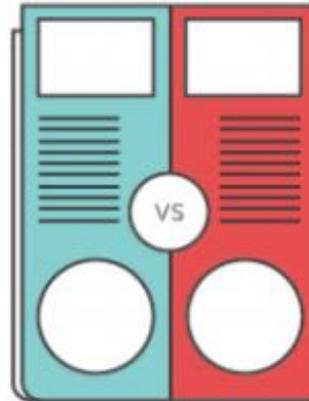

3

Organizing Your Info

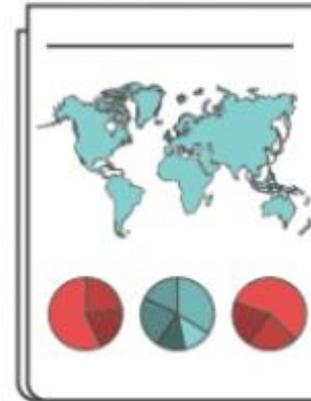

Flow charts

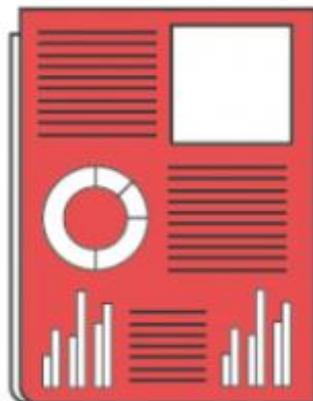

Versus comparisons

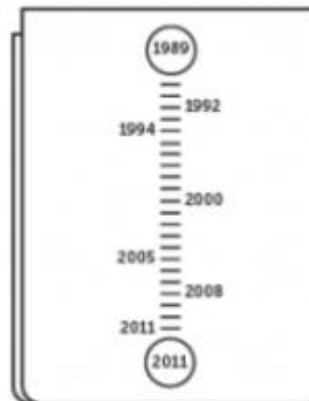

Maps

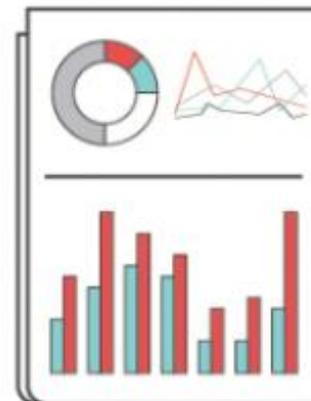

Visual articles

Timelines

Data visualizations

4

Creating Timelines

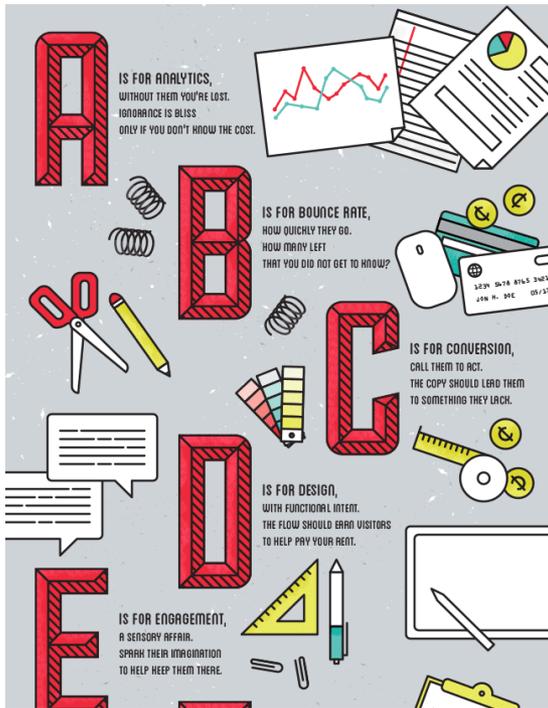

- ✓ To have a linear narrative.
- ✓ It's a simple and easy way to manage order.

5

Arranging Alphabetically

- ✓ To add some structure.
- ✓ To put a new spin on an old topic.

6

Comparing & Contrasting

- ✓ Comparisons and contrasts are great ways to explain two ideas quickly.
- ✓ This is effective for:
 - visualizing pros and cons
 - showing do's and don't's
 - highlighting similarities and differences

6

Comparing & Contrasting

TYPOGRAPHY

All fonts should be legible and appropriate for what you are communicating.

✘ WRONG

—SOCIAL—
CUSTOMER
★ Service ★

✔ RIGHT

SOCIAL
CUSTOMER SERVICE

6

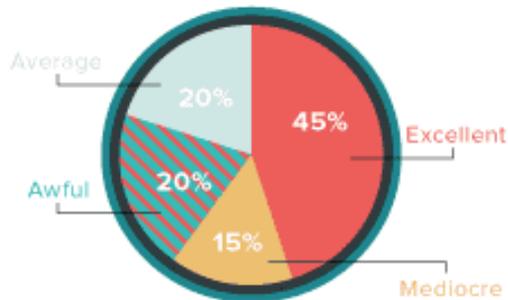

Comparing & Contrasting

COLOR

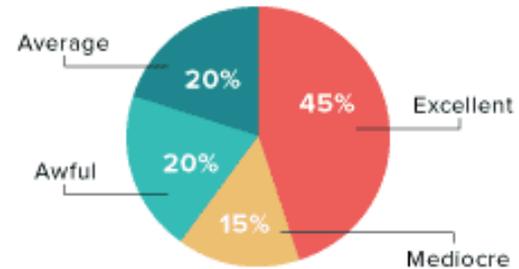

Use no more than five colors in a single layout. You can use different shades of a single color to distinguish

WRONG

RIGHT

6

Comparing & Contrasting

ICONOGRAPHY

Icons should be simple, easy to understand and universal. They're meant to enhance comprehension, never distract.

WRONG

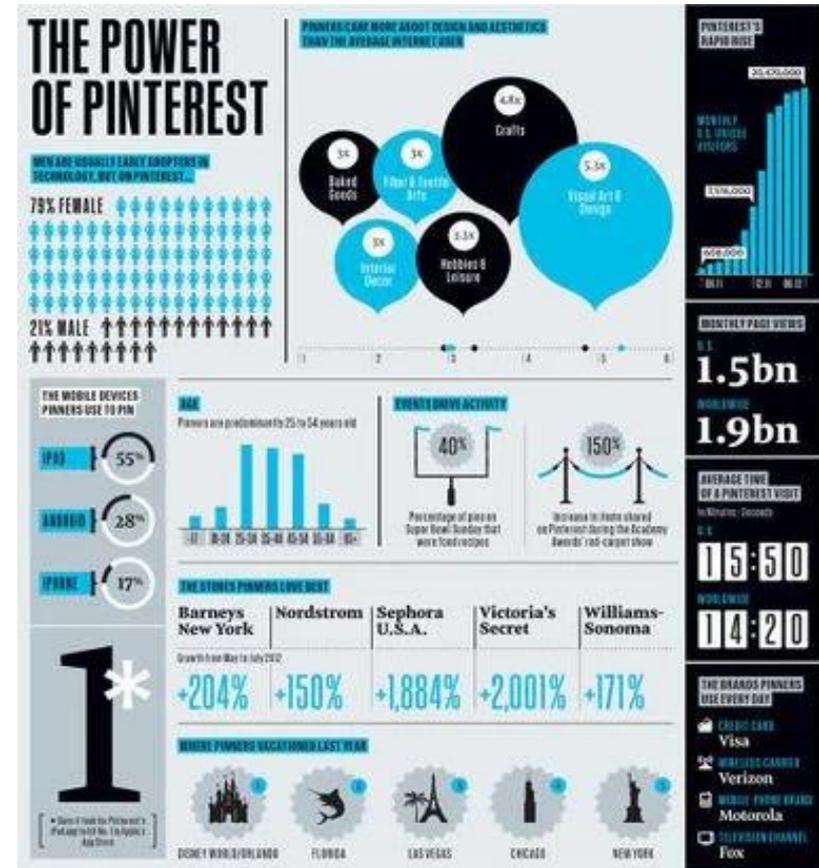

RIGHT

7

Representing Your Data

- ✓ To be persuasive.
- ✓ Make it number-friendly, understandable, and functional.
- ✓ Apply statistical knowledge.

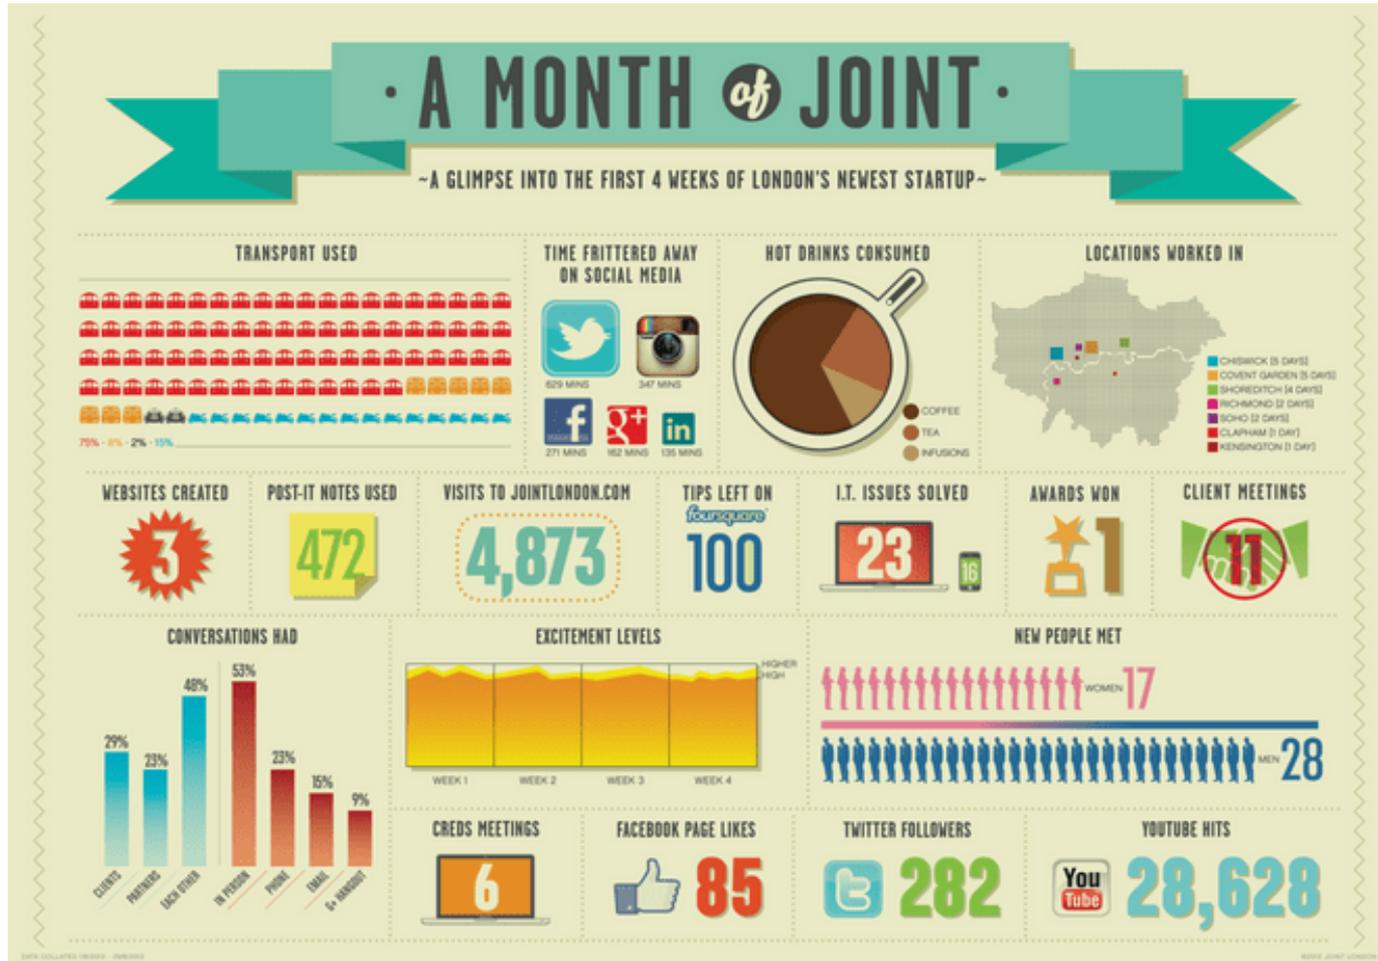

8 Establishing Style

- ✓ Select a "tone".
- ✓ Make it consistent.
- ✓ Don't be afraid to get playful and find a unique way for data visualization.
- ✓ Keep things simple.

8

Establishing Style

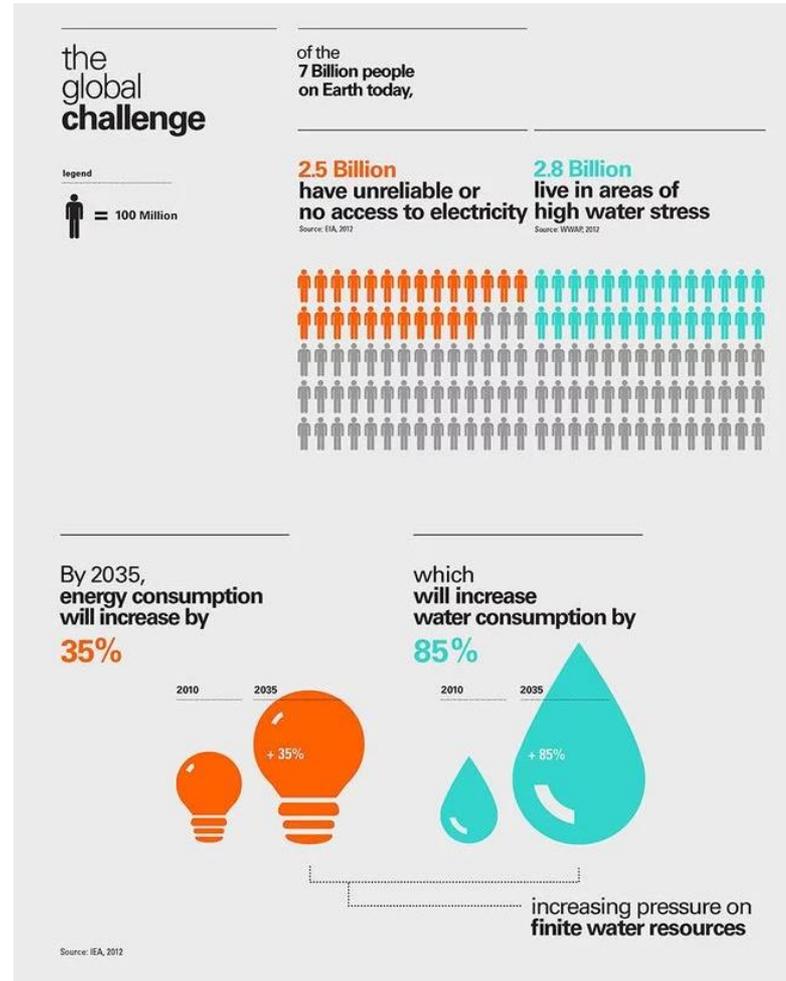

8 Establishing Style

✓ Rules of Thumb

- Keep your color palette small.
"Have 2-3 colors."
You may visit color.adobe.com.
- Bump up the contrast.
"The higher the contrast, the more legible and readable it is."

8

Establishing Style

8 Establishing Style

✓ Rules of Thumb

- Keep your font palette small.

"Have 2-3 fonts."

You may visit dafont.com.

- Pair your fonts with purpose.

"Just like people, some fonts get along well and some do not."

You may visit

designschool.canva.com/blog/the-ultimate-guide-to-font-pairing/

8 Establishing Style

- ✓ Rules of Thumb (Font Style)
 - *The key to choosing fonts is CONTRAST.*

A Bold Title?

Try a lighter Subtitle

Sentence Case Title?

TRY ALL CAPS SUBTITLE

8 Establishing Style

- ✓ Rules of Thumb (Font Style)
 - *SIZE MATTERS!!*

When people look at your design, they should know what to read first.

Make sure your Title is the largest font, then your Subtitle, then your Body Font.

8 Establishing Style

- ✓ Rules of Thumb (Font Style)
 - *Ensure your body font is simple and easy to read.*

It is not recommended that you use fonts that are hard to read because infographics are meant to enlighten your audience and not to further confuse them. Now I know that this is a really hard font to read, but this is the point of having this font face in this slide. It is to demonstrate that you should never... E.T.P. use font faces that are hard to read.

8 Establishing Style

- ✓ Rules of Thumb (Font Style)
 - *Be creative!*

**THIS IS LOTS OF
FUN
RESIZE TEXT
SO IT FORMS A
SHAPE**

8 Establishing Style

✓ Rules of Thumb

- Don't forget your hierarchy.
"Keep your design legible and readable."
Have your headings, subheadings, body copy, etc., all sorted out.
- Reap the benefits of symbols.
"Make your symbols powerful and purposeful."

8 Establishing Style

THE 5 STEPS TO CREATIVITY

BY JAMES WEBB YOUNG

1 STEP ONE GATHER THE RAW MATERIALS

Don't sit around waiting for inspiration to strike – **be curious**.

Browse all different sorts of information. Gather general information as well as specific information on what you're after.

Remember, gathering is a lifelong activity. Read widely and **have an interest in everything around you**.

“

Curiosity about life in all of its aspects, I think, is still the secret of great creative people.

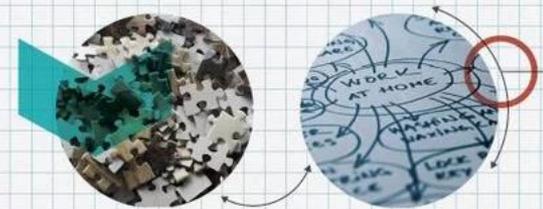

Leo Burnett

”

2 STEP TWO DIGEST

Sift through the gathered materials and look at them in **different lights**.

Bring them together and see how they **do and don't link**.

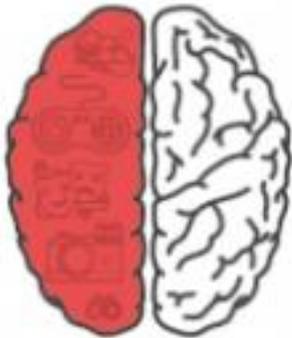

“

Creativity is just connecting things.

Steve Jobs

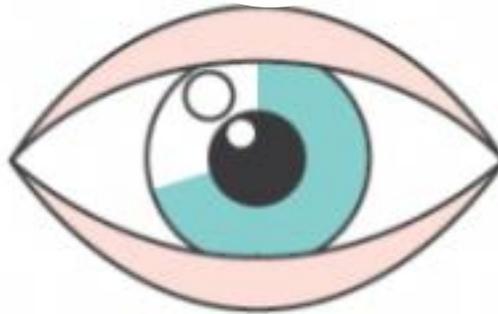

”

8 Establishing Style

ALMOST
50%

of your brain is involved
in **visual processing**

70%

of all your **sensory**
receptors are in your eyes

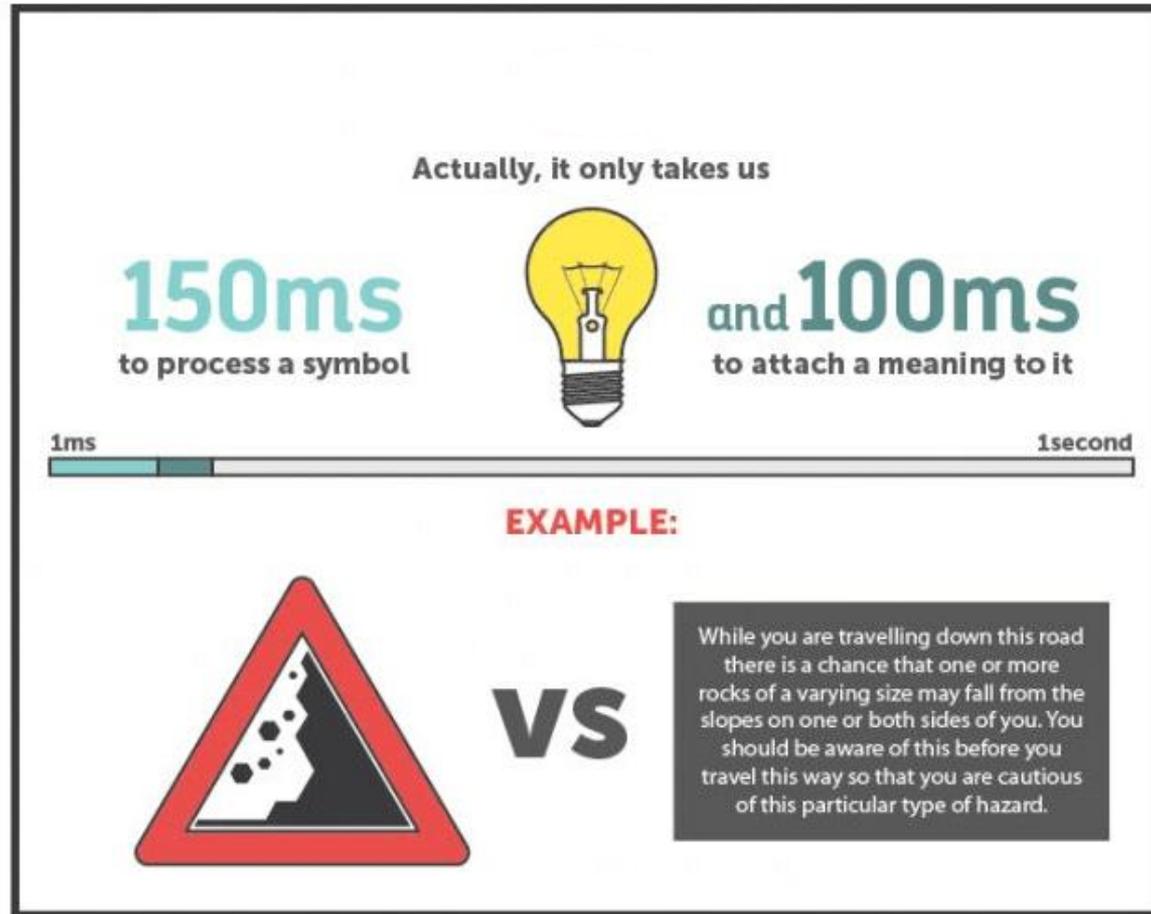

1/10
OF A SECOND

is all it takes you to
understand a **visual scene**

8

Establishing Style

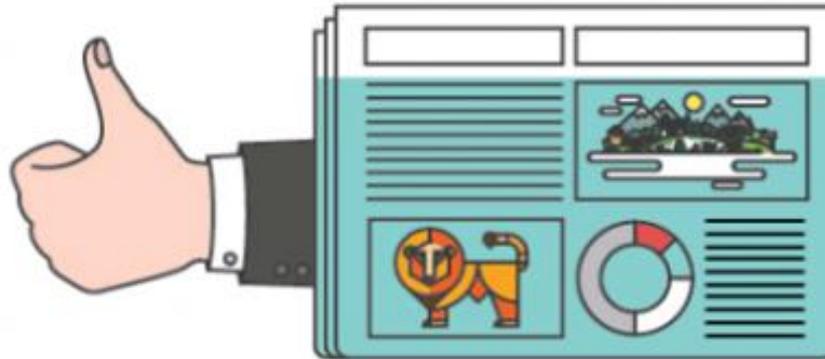

8

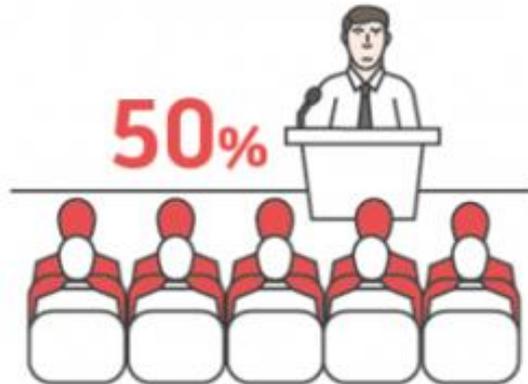

Establishing Style

Researchers found that **color visuals** increase willingness to read by

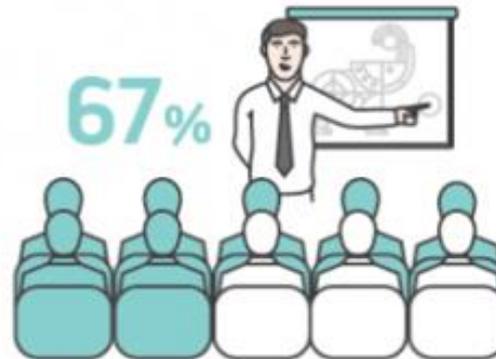

80%

A study conducted at the Wharton School of Business found that:

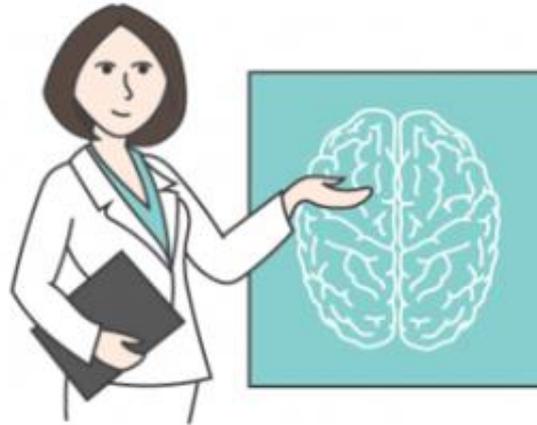

of the audience were persuaded by a purely **verbal presentation**

of the audience were persuaded by the verbal presentation with **accompanying visuals**

8

Establishing Style

Adding pictures of brain scans and mentioning cognitive neuroscience make people more inclined to believe what they are reading

People remember:

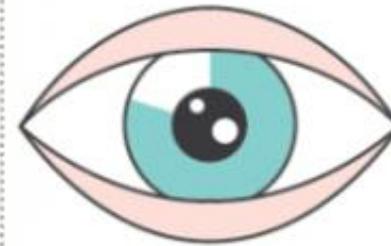

10%

of what they **HEAR**

20%

of what they **READ**

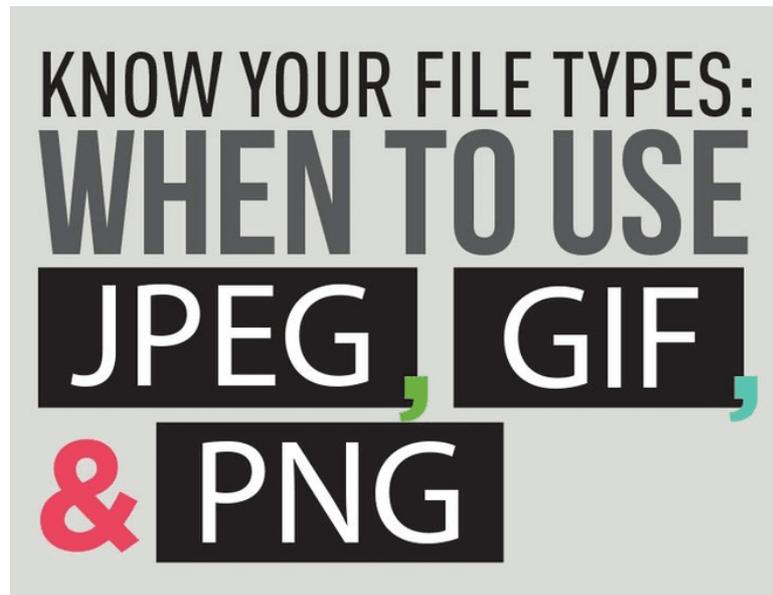

80%

of what they **SEE and DO**

9 Writing Headlines

BLAZOR.COM 1122 © FIBILLA SAVE 50% AT 800XBOO BY USING THE COUPON CODE "BLAZOR"

3

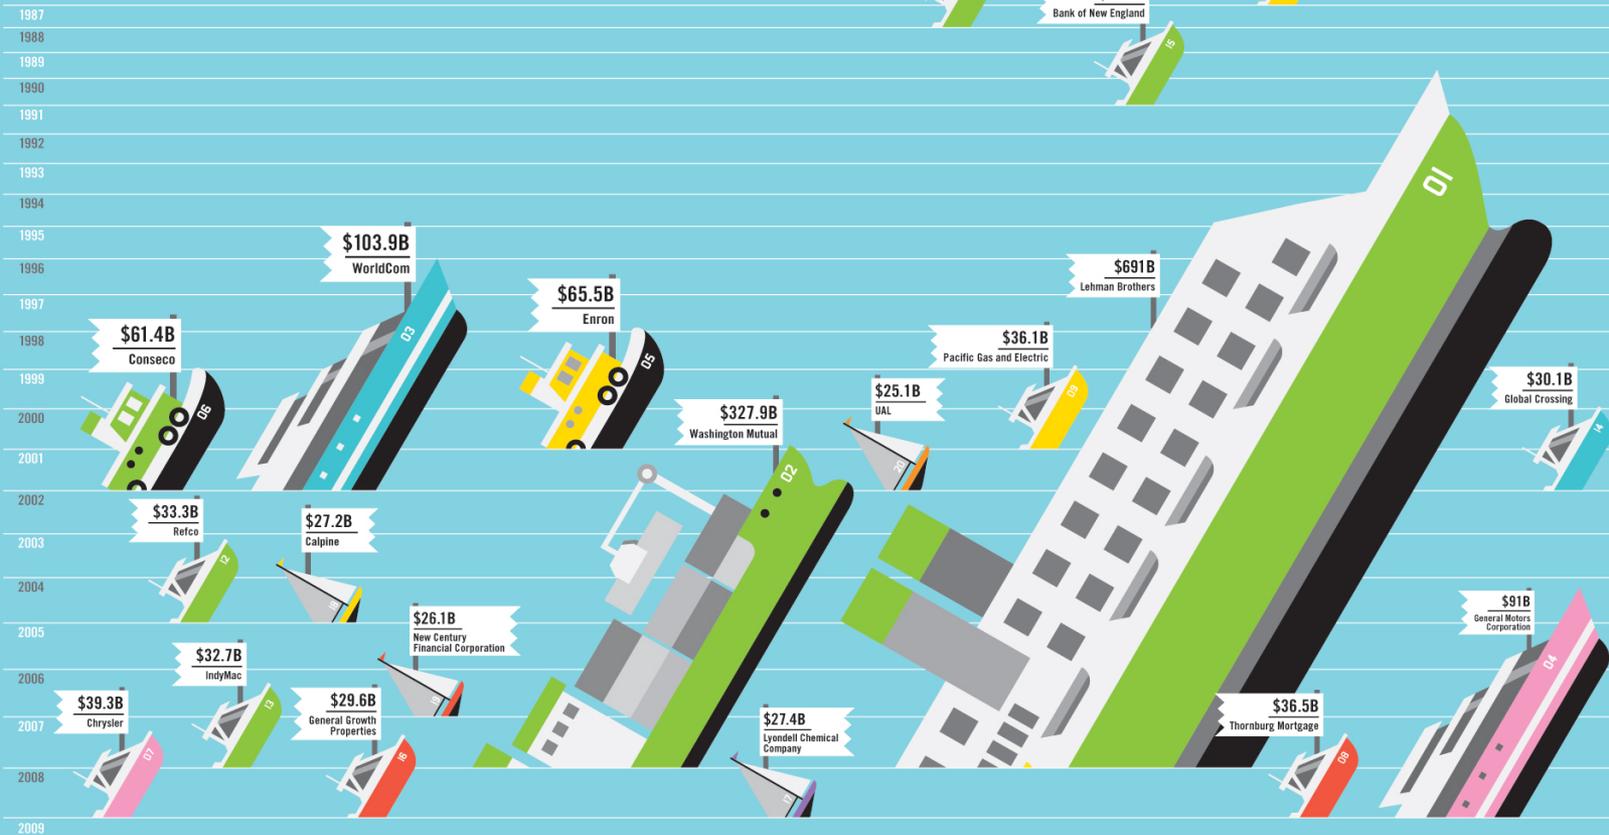

Have a Story.

- 
- 
- ✓ You have to keep in mind what's interesting to you as an audience, not what's fun to do as an analyst.
 - ✓ What's the essence of your story?
 - ✓ What's the most economical way of telling it?
 - ✓ Why must you tell this story?
- 
- 

LARGEST BANKRUPTCIES IN HISTORY

Last week, General Motors began the fourth largest bankruptcy proceedings in history, joining the many other large and venerable companies that have sunk to the bottom during this economic crisis. In fact, eight of the 20 largest bankruptcies have happened during the last two years of crisis. Here is a look at the biggest sinking ships in business history.

BOAT TO PRE-BANKRUPTCY ASSETS (in billions)

SECTOR

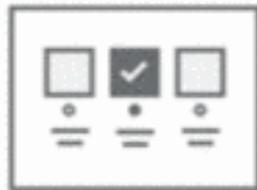

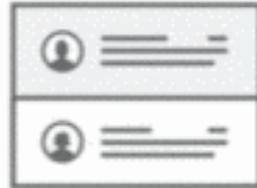

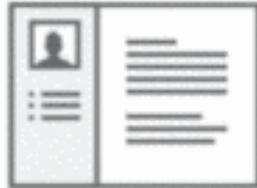

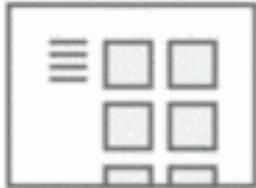

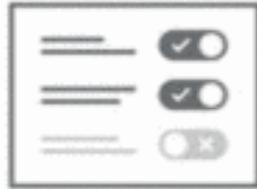

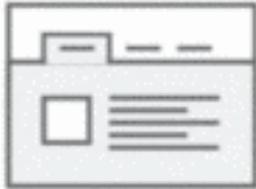

PRE-BANKRUPTCY ASSETS (in billions) / Company

4

**Create a
Wireframe.**

- 
- 
- ✓ A wireframe is a skeleton of what you're working with.
 - ✓ Using a wireframe will allow you to see if everything flows nicely and makes sense. Some information will need to be depicted in a certain way.
 - ✓ Don't use a format just for the sake of using that format.
 - ✓ Have a story in mind. Before you design, your story must be ready. The story must dictate the design.
- 
- 

5

Set the Tone.

✓ If the topic is serious, use a serious tone.

✓ If it's lighthearted, be lighthearted.

ADHD
classroom tips

tips to assist with homework
ADHD students often have difficulty with following instructions, being accurate, completing homework and prioritizing.

- break large tasks into steps
- post examples to model after
- assist the child with time management
- organization & management aids will be required

tips to assist with behaviour
ADHD students who experience impulsivity, distractibility & hyperactivity may present a behavioural challenge.

- use proactive strategies
- allow time for lesson breaks to move around
- use discreet private cues to redirect
- use preferential seating system

tips to assist with social interactions
ADHD students often have difficulty understanding social cues, how to behave appropriately towards their peers and in competitive situations.

- model frustration control
- role play social situations
- provide social opportunities
- give positive recognition

more tips

Set your ADHD students up for success:

- self-esteem**
Allow your students to demonstrate their strengths in front of others.
- transitions**
Provide students with a definite purpose for activity. (We are going to the library to...)
- ask questions ?**
Assist students in preparation for starting tasks; ask "What do you need to be able to do this?"
- be clear**
Use a multi-sensory approach with both visual and oral instructions - ask students to describe to you what their assignment is. Allow time for processing.
- be positive**
Stress effort and enjoyment for self, rather than competition with others.
